THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission file number 0-18630

CATHAY GENERAL BANCORP

(Exact name of registrant as specified in its charter)

Delaware

95-4274680

(State of other jurisdiction of incorporation
or organization)

(I.R.S. Employer
Identification No.)

777 North Broadway, Los Angeles, California

90012

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number, including area code: (213) 625-4700

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Common stock, \$.01 par value, 61,829,540 shares outstanding as of October 31, 2009.

Forward-Looking Statements

In this quarterly Report on Form 10-Q, the term “Bancorp” refers to Cathay General Bancorp and the term “Bank” refers to Cathay Bank. The terms “Company,” “we,” “us,” and “our” refer to Bancorp and the Bank collectively. The statements in this report include forward-looking statements within the meaning of the applicable provisions of the Private Securities Litigation Reform Act of 1995 regarding management’s beliefs, projections, and assumptions concerning future results and events. We intend such forward-looking statements to be covered by the safe harbor provision for forward-looking statements in these provisions. All statements other than statements of historical fact are “forward-looking statements” for purposes of federal and state securities laws, including statements about anticipated future operating and financial performance, financial position and liquidity, growth opportunities and growth rates, growth plans, acquisition and divestiture opportunities, business prospects, strategic alternatives, business strategies, financial expectations, regulatory and competitive outlook, investment and expenditure plans, financing needs and availability and other similar forecasts and statements of expectation and statements of assumptions underlying any of the foregoing. Words such as “aims,” “anticipates,” “believes,” “could,” “estimates,” “expects,” “hopes,” “intends,” “may,” “plans,” “projects,” “seeks,” “shall”, “should,” “will,” “predicts,” “potential,” “continue,” and variations of these words and similar expressions are intended to identify these forward-looking statements. Forward-looking statements by us are based on estimates, beliefs, projections, and assumptions of management and are not guarantees of future performance. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our historical experience and our present expectations or projections. Such risks and uncertainties and other factors include, but are not limited to, adverse developments or conditions related to or arising from:

Risks relating to our business-

- Difficult economic and market conditions have adversely affected our industry.
- If current levels of market disruption and volatility continue or worsen, there can be no assurance that we will not experience an adverse effect, which may be material, on our ability to access capital and on our business, financial condition and results of operations.
- We may be subject to supervisory action by bank supervisory authorities that could have a material negative effect on our business, financial condition and the value of our common stock.
- U.S. and international financial markets and economic conditions could adversely affect our liquidity, results of operations, and financial condition.
- We may be required to make additional provisions for loan losses and charge off additional loans in the future, which could adversely affect our results of operations.
- We are subject to extensive laws and regulations and supervision that could limit or restrict our activities and adversely affect our profitability.
- The allowance for credit losses is an estimate of probable credit losses. Actual credit losses in excess of the estimate could adversely affect our net income and capital.
- We may experience goodwill impairment.
- Liquidity risk could impair our ability to fund operations and jeopardize our financial condition.
- Our business is subject to interest rate risk and fluctuations in interest rates could reduce our net interest income and adversely affect our business.
- We have engaged in and may continue to engage in further expansion through acquisitions, which could negatively affect our business and earnings.

- We may engage in FDIC-assisted transactions, which could present additional risks to our business.
- Inflation and deflation may adversely affect our financial performance.
- As we expand our business outside of California markets, we will encounter risks that could adversely affect us.
- Our loan portfolio is largely secured by real estate, which has adversely affected and may continue to adversely affect our net income.
- Our use of appraisals in deciding whether to make a loan on or secured by real property does not ensure the value of the real property collateral.
- We face substantial competition from larger competitors.
- We are subject to extensive government regulation that could limit or restrict our activities, which, in turn, may hamper our ability to increase our assets and earnings.
- The short term and long term impact of the new Basel II capital standards and the forthcoming new capital rules to be proposed for non-Basel II U.S. banks is uncertain.
- We are dependent on key personnel and the loss of one or more of those key personnel may materially and adversely affect our prospects.
- Managing reputational risk is important to attracting and maintaining customers, investors and employees.
- Natural disasters and geopolitical events beyond our control could adversely affect us.
- Adverse conditions in Asia could adversely affect our business.
- Because of our participation in the TARP Capital Purchase Program, we are subject to several restrictions including restrictions on compensation paid to our executives.
- Our need to continue to adapt to our information technology systems to allow us to provide new and expanded services could present operational issues and require significant capital spending.
- Certain provisions of our charter, bylaws, and rights agreement could make the acquisition of our company more difficult.
- Our financial results could be adversely affected by changes in accounting standards or tax laws and regulations.

Risks relating to our common stock -

- The price of our common stock may fluctuate significantly, and this may make it difficult for you to resell shares of common stock owned by you at times or at prices you find attractive.
- Statutory restrictions on dividends and other distributions from the Bank may adversely impact us by limiting the amount of distributions Cathay General Bancorp may receive. State laws may restrict our ability to pay dividends.
- The terms of our outstanding preferred stock limit our ability to pay dividends on and repurchase our common stock and there can be no assurance of any future dividends on our common stock generally.
- Our outstanding preferred stock impacts net income available to our common stockholders and earnings per common share, and the Warrant as well as other potential issuances of equity securities may be dilutive to holders of our common stock.
- The issuance of additional shares of preferred stock could adversely affect holders of common stock, which may negatively impact your investment.
- Our outstanding debt securities restrict our ability to pay dividends on our capital stock.
- If economic conditions continue to deteriorate, we may need even more capital.

These and other factors are further described in Cathay General Bancorp's Current Report on Form 8-K filed on October 13, 2009, other reports and registration statements filed with the Securities and Exchange Commission ("SEC"), and other filings it makes with the SEC from time to time. Actual results in any future period may also vary from the past results discussed in this report. Given these risks and uncertainties, readers are cautioned not to place undue reliance on any forward-looking statements, which speak to the date of this report. Cathay General Bancorp has no intention and undertakes no obligation to update any forward-looking statement or to publicly announce any revision of any forward-looking statement to reflect future developments or events, except as required by law.

Cathay General Bancorp's filings with the SEC are available at the website maintained by the SEC at <http://www.sec.gov>, or by request directed to Cathay General Bancorp, 9650 Flair Drive, El Monte, California 91731, Attention: Investor Relations (626) 279-3286.

CATHAY GENERAL BANCORP AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. Business

Cathay General Bancorp (the “Bancorp”) is the holding company for Cathay Bank (the “Bank”), six limited partnerships investing in affordable housing investments in which the Bank is the sole limited partner, and GBC Venture Capital, Inc. The Bancorp also owns 100% of the common stock of five statutory business trusts created for the purpose of issuing capital securities. The Bank was founded in 1962 and offers a wide range of financial services. As of September 30, 2009, the Bank operates twenty branches in Southern California, eleven branches in Northern California, eight branches in New York State, three branches in Illinois, three branches in Washington State, two branches Texas, one branch in Massachusetts, one branch in New Jersey, one branch in Hong Kong, and a representative office in Shanghai and in Taipei. Deposit accounts at the Hong Kong branch are not insured by the Federal Deposit Insurance Corporation (the “FDIC”).

2. Acquisitions and Investments

We continue to look for opportunities to expand the Bank’s branch network by seeking new branch locations and/or by acquiring other financial institutions to diversify our customer base in order to compete for new deposits and loans, and to be able to serve our customers more effectively.

For each acquisition, we develop an integration plan for the consolidated company that addresses, among other things, requirements for staffing, systems platforms, branch locations and other facilities. The established plans are evaluated regularly during the integration process and modified as required. Merger and integration expenses are summarized in the following primary categories: (i) severance and employee-related charges; (ii) system conversion and integration costs, including contract termination charges; (iii) asset write-downs, lease termination costs for abandoned space and other facilities-related costs; and (iv) other charges. Other charges include investment banking fees, legal fees, other professional fees relating to due diligence activities and expenses associated with preparation of securities filings, as appropriate. These costs are included in the allocation of the purchase price at the acquisition date based on our formal integration plans.

As of September 30, 2009, goodwill was \$316.3 million, a decrease of \$3.3 million, compared to \$319.6 million at December 31, 2008, due to the expiration of the statute of limitations for an uncertain tax position taken by GBC Bancorp which was previously recorded as a purchase accounting adjustment at the date of acquisition. Merger-related lease liability was \$378,000 at September 30, 2009, and \$424,000 at December 31, 2008.

3. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results

for the interim periods presented are not necessarily indicative of the results that may be expected for the year ending December 31, 2009. For further information, refer to the audited consolidated financial statements and footnotes included in the Company's annual report on Form 10-K for the year ended December 31, 2008.

The preparation of the consolidated financial statements in accordance with GAAP requires management of the Company to make a number of estimates and assumptions relating to the reported amount of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. The most significant estimates subject to change are the allowance for loan losses, goodwill impairment, and other-than-temporary impairment.

4. Recent Accounting Pronouncements

In June 2009, the FASB issued Statement No. 168, *"The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles"*, a replacement of FASB Statement No. 162. SFAS 168 is to establish the FASB Accounting Standards Codification ("ASC") as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. New standards issued after the Codification's release will serve to update the Codification and will be referred to as Accounting Standards Updates ("ASUs"). Financial statements for interim and annual periods ended after September 15, 2009, shall use Codification references, not legacy GAAP references. SFAS 168 was codified into ASC 105 in June 2009. In conjunction with the issuance of SFAS 168, the FASB issued its first ASU No. 2009-1, *"Topic 105- Generally Accepted Accounting Principles"* ("ASU 2009-1") and included SFAS 168 in its entirety. ASU 2009-1 was effective for the Company on September 15, 2009. The adoption of ASU 2009-1 did not have a material impact on the Company's consolidated financial statements.

SFAS No. 141, *"Business Combinations (Revised 2007)"* was codified into ASC Topic 805. ASC Topic 805 applies to all transactions and other events in which one entity obtains control over one or more other businesses and requires an acquirer, upon initially obtaining control of another entity, to recognize the assets, liabilities and any non-controlling interest in the acquiree at fair value as of the acquisition date. Contingent consideration is required to be recognized and measured at fair value on the date of acquisition rather than at a later date when the amount of that consideration may be determinable beyond a reasonable doubt. This fair value approach replaces the cost-allocation process whereby the cost of an acquisition was allocated to the individual assets acquired and liabilities assumed based on their estimated fair value. ASC Topic 805 requires acquirers to expense acquisition-related costs as incurred rather than allocating such costs to the assets acquired and liabilities assumed. Pre-acquisition contingencies are to be recognized at fair value, unless it is a non-contractual contingency that is not likely to materialize, in which case, nothing should be recognized in purchase accounting and, instead, that contingency would be subject to the probable and estimable recognition criteria of ASC Topic 450, "Accounting for Contingencies." ASC Topic 805 is expected to have a significant impact on the Company's accounting for business combinations closing on or after January 1, 2009.

In April 2009, the FASB issued Staff Position (FSP) 157-4, *"Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying*

Transactions That Are Not Orderly". FSP 157-4 which was codified into ASC Topic 820 provides additional guidance for estimating fair value when the volume and level of activity for the asset or liability have significantly decreased when compared with normal market activity for the asset or liability and identifying transactions that are not orderly. In those circumstances, further analysis and significant adjustment to the transaction or quoted prices may be necessary to estimate fair value. This FSP reaffirms fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. The adoption of this standard on June 15, 2009, did not have a material impact on the Company's consolidated financial statements. See Note 16- "Fair Value Measurements" for more information.

SFAS No. 160, "Noncontrolling Interest in Consolidated Financial Statements, an amendment of ARB Statement No. 51." SFAS 160 amends Accounting Research Bulletin (ARB) No. 51, "Consolidated Financial Statements," which was codified into ASC Topic 810 to establish accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. ASC Topic 810 clarifies that a non-controlling interest in a subsidiary, which is sometimes referred to as minority interest, is an ownership interest in the consolidated entity that should be reported as a component of equity in the consolidated financial statements. Among other requirements, SFAS 160 requires consolidated net income to be reported at amounts that include the amounts attributable to both the parent and the non-controlling interest. It also requires disclosure, on the face of the consolidated income statement, of the amounts of consolidated net income attributable to the parent and to the non-controlling interest. The Company adopted ASC Topic 810 effective as of January 1, 2009, and reclassified non-controlling interest of \$8.5 million from other liabilities to equity.

In March 2008, the FASB issued Statement No. 161, "*Disclosure about Derivative Instruments and Hedging Activities- an amendment of FASB Statement No. 133*" ("*SFAS 161*"). SFAS 161 which was codified into ASC Topic 815 requires enhanced disclosures about how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for and how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. ASC Topic 815 was effective for the Company on November 15, 2008. The adoption of ASC Topic 815 did not have a material impact on the Company's consolidated financial statements.

In April 2009, the FASB issued Statement No. 107-1, "*Interim Disclosure about Fair Value of Financial Instruments.*" SFAS 107-1 was codified into ASC Topic 825. ASC Topic 825 requires publicly traded companies to disclose the fair value of financial instruments within the scope of ASC Topic 825 in interim financial statements, in addition to annual statements. Publicly traded companies also shall disclose the methods and significant assumptions used to estimate the fair value of financial instruments and shall describe changes in methods and significant assumptions, if any, during the period. The adoption of this standard on June 15, 2009, did not have a significant impact on the Company's financial statements.

In April 2009, the FASB also issued Statement No. 115-2, "*Recognition and Presentation of Other-Than-Temporary Impairments.*" SFAS 115-2 which was codified into ASC Topic 320 changes the requirements for recognizing other-than-temporary impairment (OTTI) for debt securities. This standard requires an entity to assess whether the entity has the intent to sell the debt security or more likely than not will be required to sell the debt security before its anticipated recovery. If either of these conditions is met, an entity must recognize an OTTI. OTTI is separated into the amount of the total impairment related to credit losses and the amount of the total impairment related to all other

factors. An entity determines the impairment related to credit losses by comparing the present value of cash flows expected to be collected from the security with the amortized cost basis of the security. OTTI related to the credit loss is then recognized in earnings. OTTI related to all other factors is recognized in other comprehensive income. OTTI not related to the credit loss for a held-to-maturity security should be recognized separately in a new category of other comprehensive income and amortized over the remaining life of the debt security as an increase in the carrying value of the security only when the entity does not intend to sell the security and it is not more likely than not that the entity will be required to sell the security before recovery of its remaining amortized cost basis. This standard expands and increases the frequency of existing disclosures about OTTI for debt and equity securities. On June 15, 2009, the date the Company adopted this standard, no cumulative effect was recorded because the Company had not previously recorded any other-than-temporary impairment related to the credit loss associated with available-for-sale debt securities that the Company owned. The adoption of this standard did not have a material impact on the Company's consolidated financial statements.

In May 2009, the FASB issued Statement No. 165, "*Subsequent Events.*" SFAS 165 which was codified into ASC Topic 855 applies to the accounting for and disclosure of subsequent events, but will not result in significant changes in practice. Subsequent events are events or transactions that occur after the balance sheet date but before financial statements are issued or are available to be issued. There are two types of subsequent events- recognized subsequent events and non-recognized subsequent events. An entity shall recognize in the financial statements the effects of events or transactions that provide additional evidence about conditions that existed at the date of the balance sheet, a recognized subsequent event. An entity shall not recognize subsequent events that provide evidence about conditions that did not exist at the date of the balance but arose after that date, a non-recognized subsequent event. ASC Topic 855 is effective for annual financial statements covering the first fiscal year ending after June 15, 2009. Adoption of ASC Topic 855 did not have a significant impact on the Company's consolidated financial statements.

In June 2009, the FASB issued Statement No. 166, "*Accounting for Transfers of Financial Assets an amendment of FASB Statement No. 140.*" SFAS 166 removes the concept of a qualifying special-purpose entity and the provisions for guaranteed mortgage securitizations in earlier FASB pronouncements. A transferor should account for the transfer as a sale only if it transfers an entire financial asset and surrenders control over the entire transferred assets in accordance with the conditions in SFAS 166. SFAS limits the circumstances in which a financial asset should be derecognized. SFAS 166 is effective for annual financial statements covering the first fiscal year ending after November 15, 2009. The Company does not expect a material impact on its consolidated financial statements from adoption of SFAS 166.

Statement No. 167, "*Amendments to FASB Interpretation No. 46(R)*" was also issued in June 2009. SFAS 167 eliminates the quantitative approach previously required under FIN 46(R) (ASC Subtopic 810-10) for determining whether an entity is a variable interest entity. SFAS 167 requires an entity to perform an ongoing assessments to determine whether an entity is the primarily beneficiary of a variable interest entity. The ongoing assessments identify the power to direct the activities of a variable interest entity, the obligation to absorb losses of the entity and the right to receive benefits from the entity that could potentially be significant to the variable interest entity. SFAS 167 is effective for annual financial statements covering the first fiscal year ending after November 15, 2009. The Company does not expect a material impact on its consolidated financial statements from adoption of SFAS 167.

5. Earnings/Loss per Share

Basic earnings per share excludes dilution and is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock and resulted in the issuance of common stock that then shared in earnings. Potential dilution is excluded from computation of diluted per-share amounts when a net loss from operation exists.

Outstanding stock options with anti-dilutive effect were not included in the computation of diluted earnings per share. The following table sets forth basic and diluted earnings per share calculations and the average shares of stock options with anti-dilutive effect:

	For the three months ended September 30,		For the nine months ended September 30,	
	2009	2008	2009	2008
(Dollars in thousands, except share and per share data)				
Net(loss)/ Income attributable to Cathay General Bancorp	(\$17,679)	\$6,891	(\$32,112)	\$53,421
Dividends on preferred stock	(4,086)	-	(12,249)	-
Net (loss)/ income available to common stockholders	(\$21,765)	\$6,891	(\$44,361)	\$53,421
Weighted-average shares:				
Basic weighted-average number of common shares outstanding	50,183,296	49,441,621	49,758,833	49,392,655
Dilutive effect of weighted-average outstanding common shares equivalents				
Stock Options	0	83,147	0	102,398
Restricted Stock	0	5,504	0	2,118
Diluted weighted-average number of common shares outstanding	50,183,296	49,530,272	49,758,833	49,497,171
Average shares of stock options and warrants with anti-dilutive effect	12,108,437	4,808,696	8,724,857	4,429,533
(Loss)/Earnings per common stock share:				
Basic	(\$0.43)	\$0.14	(\$0.89)	\$1.08
Diluted	(\$0.43)	\$0.14	(\$0.89)	\$1.08

6. Stock-Based Compensation

In 1998, the Board adopted the Cathay Bancorp, Inc. Equity Incentive Plan. Under the Equity Incentive Plan, as amended in September, 2003, directors and eligible employees may be granted incentive or non-statutory stock options and/or restricted stock units, or awarded non-vested stock, for up to 7,000,000 shares of the Company's common stock on a split adjusted basis. In May 2005, the stockholders of the Company approved the 2005 Incentive Plan which provides that 3,131,854 shares of the Company's common stock may be granted as incentive or non-statutory stock options, or as restricted stock, or as restricted stock units. In conjunction with the approval of the 2005 Incentive Plan, the Bancorp agreed to cease granting awards under the Equity Incentive Plan. As of September 30, 2009, the only options granted by the Company under the 2005 Incentive Plan were non-statutory stock options to selected bank officers and non-employee directors at exercise prices equal to the fair market value of a share of the Company's common stock on the date of grant. Such options have a maximum ten-year term and vest in 20% annual increments (subject to early termination in certain events) except options granted to the Chief Executive Officer of the Company for 100,000 shares

granted on February 21, 2008, of which 50% were vested on February 21, 2009, and the remaining 50% would vest on February 21, 2010. If such options expire or terminate without having been exercised, any shares not purchased will again be available for future grants or awards. Stock options are typically granted in the first quarter of the year. There were no options granted during the first nine months of 2009. In February 21, 2008, the Company granted options of 689,200 shares and restricted stock units of 82,291 shares to selected bank officers and non-employee directors. The Company expects to issue new shares to satisfy stock option exercises and the vesting of restricted stock units.

Stock-based compensation expense for stock options is calculated based on the fair value of the award at the grant date for those options expected to vest, and is recognized as an expense over the vesting period of the grant. The Company uses the Black-Scholes option pricing model to estimate the value of granted options. This model takes into account the option exercise price, the expected life, the current price of the underlying stock, the expected volatility of the Company's stock, expected dividends on the stock and a risk-free interest rate. The Company estimates the expected volatility based on the Company's historical stock prices for the period corresponding to the expected life of the stock options. Based on SAB 107 and SAB 110, the Company has estimated the expected life of the options based on the average of the contractual period and the vesting period and has consistently applied the simplified method to all options granted starting from 2005. Option compensation expense totaled \$1.2 million for the three months ended September 30, 2009, and \$1.7 million for the three months ended September 30, 2008. For the nine months ended September 30, option compensation expense totaled \$3.9 million for 2009 and \$5.1 million for 2008. Stock-based compensation is recognized ratably over the requisite service period for all awards. Unrecognized stock-based compensation expense related to stock options totaled \$6.2 million at September 30, 2009, and is expected to be recognized over the next 1.9 years.

The weighted average per share fair value on the date of grant of the options granted was \$6.86 during the first quarter of 2008. There were no options granted in the first nine months of 2009. The Company estimated the expected life of the options based on the average of the contractual period and the vesting period. The fair value of stock options has been determined using the Black-Scholes option pricing model with the following assumptions:

	<u>Nine months ended</u> <u>September 30, 2008</u>
Expected life- number of years	6.4
Risk-free interest rate	3.09%
Volatility	30.04%
Dividend yield	1.80%

No stock options were exercised during the third quarter of 2009 and 2,000 shares were exercised during the third quarter of 2008. Cash received from exercises of stock options totaled \$13,000 from the exercise of stock options on 1,280 shares during the nine months ended September 30, 2009, and \$372,000 from the exercise of 20,906 shares during the nine months ended September 30, 2008. No stock options were vested during the third quarter of 2009 and during the third quarter of 2008. The table below summarizes stock option activity for the periods indicated:

	<u>Shares</u>	<u>Weighted-Average Exercise Price</u>	<u>Weighted-Average Remaining Contractual Life (in years)</u>	<u>Aggregate Intrinsic Value (in thousands)</u>
Balance at December 31, 2008	5,206,374	\$ 27.72	5.6	\$ 6,220
Granted	-	-		
Forfeited	(7,956)	31.10		
Exercised	(1,280)	10.63		
Balance at March 31, 2009	<u>5,197,138</u>	<u>\$ 27.72</u>	<u>5.3</u>	<u>\$ -</u>
Granted	-	-		
Forfeited	(5,438)	34.15		
Exercised	-	-		
Balance at June 30, 2009	<u>5,191,700</u>	<u>\$ 27.71</u>	<u>5.1</u>	<u>\$ -</u>
Granted	-	-		
Forfeited	(21,766)	27.96		
Exercised	-	-		
Balance at September 30, 2009	<u>5,169,934</u>	<u>\$ 27.71</u>	<u>4.9</u>	<u>\$ -</u>
Exercisable at September 30, 2009...	<u>4,233,106</u>	<u>\$ 27.34</u>	<u>4.3</u>	<u>\$ -</u>

At September 30, 2009, 1,609,640 shares were available under the Company's 2005 Incentive Plan for future grants.

In addition to stock options above, in February 2008, the Company also granted restricted stock units on 82,291 shares of the Company's common stock to its eligible employees. On the date of granting of these restricted stock units, the closing price of the Company's stock was \$23.37 per share. Such restricted stock units have a maximum term of five years and vest in approximately 20% annual increments subject to employees' continued employment with the Company. On February 21, 2009, restricted stock units of 15,828 shares were vested at the closing price of \$8.94 per share. Among the 15,828 restricted stock units, 2,865 shares were cancelled immediately for employees who elected to satisfy income tax withholding amounts through cancellation of restricted stock units. Common stock shares of 12,963 were issued and outstanding as of February 21, 2009. The following table presents information relating to the restricted stock units grant as of September 30, 2009:

	<u>Units</u>
Balance at December 31, 2008	79,537
Vested	(12,963)
Cancelled or forfeited.....	(5,559)
Balance at September 30, 2009	<u>61,015</u>

The compensation expense recorded related to the restricted stock units above was \$82,000 for the three months ended September 30, 2009, and \$82,000 for the three months ended September 30, 2008. For the nine months ended September 30, compensation expense recorded was \$245,000 in 2009 and \$191,000 in 2008. Unrecognized stock-based compensation expense related to restricted stock units was \$1.1 million at September 30, 2009, and is expected to be recognized over the next 3.4 years.

Prior to 2006, the Company presented the entire amount of the tax benefit on options exercised as operating activities in the consolidated statements of cash flows. After adoption of SFAS No. 123R in January 2006, the Company reports only the benefits of tax deductions in excess of grant-date fair

value as cash flows from operating activity and financing activity. The following table summarizes the tax benefit (short-fall) from share-based payment arrangements:

(Dollars in thousands)	For the three months ended September 30,		For the nine months ended September 30,	
	2009	2008	2009	2008
Short-fall of tax deductions in excess of grant-date fair value	\$ (64)	\$ (3)	\$ (195)	\$ (240)
Benefit of tax deductions on grant-date fair value	64	15	198	297
Total benefit of tax deductions	\$ -	\$ 12	\$ 3	\$ 57

7. Securities Purchased Under Agreements to Resell

Securities purchased under agreements to resell are usually collateralized by U.S. government agency and mortgage-backed securities. The counter-parties to these agreements are nationally recognized investment banking firms that meet credit requirements of the Company and with whom a master repurchase agreement has been duly executed. As of December 31, 2008, the Company had four resale agreements of \$201.0 million outstanding at an annualized weighted average interest rate of 5.39%. During the first quarter of 2009, one resale agreement of \$51.0 million matured in January 2009 and three long-term resale agreements of \$150.0 million were called in February 2009. As of September 30, 2009, the Company has no resale agreements outstanding.

For those securities obtained under the resale agreements, the collateral is either held by a third party custodian or by the counter-party and is segregated under written agreements that recognize the Company's interest in the securities. Interest income associated with securities purchased under resale agreements was zero for the third quarter of 2009 and \$1.3 million for the first nine months of 2009 and \$2.8 million for the third quarter of 2008 and \$12.0 million for the first nine months of 2008.

8. Securities

The following tables summarize the composition, amortized cost, gross unrealized gains, gross unrealized losses, and fair value of securities available-for-sale, as of September 30, 2009, and December 31, 2008:

	September 30, 2009			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
		(In thousands)		
U.S. government sponsored entities.....	\$ 805,461	\$ 2,318	\$ -	\$ 807,779
State and municipal securities.....	15,844	167	29	15,982
Mortgage-backed securities.....	2,297,707	29,271	1,440	2,325,538

Preferred stock of government sponsored entities.....	701	1,621	-	2,322
Other securities foreign organization.....	6,450	1	-	6,451
Other equity securities.....	1,785	-	702	1,083
Total	<u>\$ 3,266,440</u>	<u>\$ 33,784</u>	<u>\$ 5,416</u>	<u>\$ 3,294,808</u>

December 31, 2008				
	Amortized	Gross	Gross	
	Cost	Unrealized	Unrealized	Fair Value
		Gains	Losses	
(In thousands)				
U.S. treasury securities	\$ 10,510	\$ 35	\$ -	\$ 10,545
U.S. government sponsored entities	764,341	1,641	-	765,982
State and municipal securities	23,059	214	37	23,236
Mortgage-backed securities	2,029,265	53,476	5,278	2,077,463
Collateralized mortgage obligations	179,939	462	7,523	172,878
Asset-backed securities	423	-	63	360
Corporate bonds	35,246	-	2,676	32,570
Preferred stock of government sponsored entities	783	-	-	783
Total	\$ 3,043,566	\$ 55,828	\$ 15,577	\$ 3,083,817

Realized gains or losses on sales of securities available-for-sale are recorded using the specific identification method. The amortized cost and fair value of debt securities available-for-sale at September 30, 2009, by contractual maturities are shown below. Actual maturities may differ from contractual maturities because borrowers may have the right to call or repay obligations with or without call or repayment penalties.

	Amortized	
	Cost	Fair Value
(In thousands)		
Due in one year or less	\$ 8,195	\$ 8,212
Due after one year through five years	439,844	439,772
Due after five years through ten years	657,258	664,113
Due after ten years	2,161,143	2,182,711
Total	\$ 3,266,440	\$ 3,294,808

Proceeds from sales, calls, and repayments of securities available-for-sale were \$3.4 billion during the first nine months on 2009 compared to \$2.8 billion during the same period a year ago, and were \$424.2 million during the third quarter of 2009 compared to \$1.2 billion during the same quarter a year ago. Gains of \$52.4 million and no losses were realized on sales and calls of securities available-for-sale for the first nine months of 2009 compared with \$20.7 million in gains and \$6,000 in losses realized for the same period a year ago. Gains of \$2.9 million and no losses were realized on sales and calls of securities available-for-sale for the third quarter of 2009 compared with \$18.3 million in gains and no losses realized for the same quarter a year ago.

Between 2002 and 2004, the Company purchased a number of mortgage-backed securities and collateralized mortgage obligations comprised of interests in non-agency guaranteed residential mortgages. At September 30, 2009, the remaining par value was \$14.0 million for these mortgage-backed securities with unrealized losses of \$1.4 million and \$121.0 million for collateralized mortgage obligations with unrealized losses of \$2.4 million. The remaining par value of these securities totaled \$135.0 million which represents 4.1% of the fair value of the Company's securities available-for-sale and 1.1% of the Company's total assets. At September 30, 2009, the unrealized loss for these securities totaled \$3.8 million which represented 2.8% of the par amount of these non-agency guaranteed residential mortgages and resulted from increases in credit spreads subsequent to the date that these securities were purchased. Based on the Company's analysis at September 30, 2009, there

was no “other-than-temporary” impairment in these securities due to the low loan to value ratio for the loans underlying these securities, the credit support provided by junior tranches of these securitizations, and the continued AAA rating for all but five issues of these securities. The Company’s analysis also indicated the continued full ultimate collection of principal and interest for the five issues that were no longer rated AAA.

The Company's unrealized loss on investments in corporate bonds relates to two investments in bonds of financial institutions in the amounts of \$10 million and \$250,000, all of which were investment grade at the date of acquisition and as of September 30, 2009. The unrealized losses of \$676,000 were primarily caused by the widening of credit spreads since the dates of acquisition. The contractual terms of those investments do not permit the issuers to settle the security at a price less than the amortized cost of the investment. The Company currently does not believe it is probable that it will be unable to collect all amounts due according to the contractual terms of the investment. Therefore, it is expected that these debentures would not be settled at a price less than the amortized cost of the investment.

ASC Topic 320 changes the requirements for recognizing other-than-temporary impairment (OTTI) for debt securities. ASC Topic 320 requires an entity to assess whether the entity has the intent to sell the debt security or more likely than not will be required to sell the debt security before its anticipated recovery. The Company has no intent to sell and will not be required to sell available-for-sale securities that decline below their cost before their anticipated recovery. At September 30, 2009, there was no other-than-temporary impairment related to credit losses to be recognized in earnings. Other-than-temporary impairment related to all other factors was recognized in other comprehensive income.

The temporarily impaired securities represent 5.2% of the fair value of securities available-for-sale as of September 30, 2009. Unrealized losses for securities with unrealized losses for less than twelve months represent 2.1%, and securities with unrealized losses for twelve months or more represent 3.8% of the historical cost of these securities and generally resulted from increases in interest rates subsequent to the date that these securities were purchased. All of these securities are investment grade as of September 30, 2009. At September 30, 2009, 39 issues of securities had unrealized losses for 12 months or longer and 8 issues of securities had unrealized losses of less than 12 months. The table below shows the fair value, unrealized losses, and number of issuances as of September 30, 2009, of the temporarily impaired securities in the Company’s available-for-sale securities portfolio:

Temporarily Impaired Securities as of September 30, 2009

Description of securities	Less than 12 months			12 months or longer			Total		
	Fair Value	Unrealized Losses	No. of Issuances	Fair Value	Unrealized Losses	No. of Issuances	Fair Value	Unrealized Losses	No. of Issuances
	(In thousands, except no. of issuances)								
State and municipal securities	-	-	-	668	29	1	668	29	1
Mortgage-backed securities	50,799	18	6	2,283	45	10	53,082	63	16
Non-agency mortgage-backed securities	-	-	-	12,565	1,377	3	12,565	1,377	3
Collateralized mortgage obligations	22,075	881	1	71,956	1,619	21	94,031	2,500	22
Asset-backed securities	-	-	-	249	69	1	249	69	1
Corporate bonds	-	-	-	9,320	676	3	9,320	676	3
Equity securities	1,083	702	1	-	-	-	1,083	702	1
Total	\$ 73,957	\$ 1,601	8	\$ 97,041	\$ 3,815	39	\$ 170,998	\$ 5,416	47

On June 19, 2009, the Company securitized \$13.9 million real estate mortgage loans through Federal Home Loan Mortgage Corporation (“FHLMC”) and recognized mortgage servicing assets of \$139,000 for the servicing rights it retained. On June 26, 2009, the Company sold all of the resulting securities of \$13.9 million and recognized gains on sale of securities of \$492,000. Prior to June 2009, the Company had no securitization transactions.

In August, 2009, the Company purchased U.S. government agency securities at par of \$100.0 million and classified them as securities held-to-maturity securities. Book value for securities held-to-maturity were \$99.9 million at September 30, 2009 and zero at September 30, 2008.

9. Investments in Affordable Housing

The Company has invested in certain limited partnerships that were formed to develop and operate housing for lower-income tenants throughout the United States. The Company’s investments in these partnerships were \$98.0 million at September 30, 2009, and \$103.6 million at December 31, 2008. At September 30, 2009 and December 31, 2008, six of the limited partnerships in which the Company has an equity interest were determined to be variable interest entities for which the Company is the primary beneficiary. The consolidation of these limited partnerships in the Company’s consolidated financial statements increased total assets and liabilities by \$23.0 million at September 30, 2009, and by \$22.8 million at December 31, 2008. Other borrowings for affordable housing limited partnerships were \$19.4 million at September 30, 2009 and \$19.5 million at December 31, 2008; recourse is limited to the assets of the limited partnerships. Unfunded commitments for affordable housing limited partnerships of \$11.1 million as of September 30, 2009, and \$22.1 million as of December 31, 2008 were recorded under other liabilities.

10. Commitments and Contingencies

In the normal course of business, the Company becomes a party to financial instruments with off-balance sheet risk to meet the financing needs of its customers. These financial instruments include commitments to extend credit in the form of loans, or through commercial or standby letters of credit, and financial guarantees. These instruments represent varying degrees of exposure to risk in excess of the amounts included in the accompanying condensed consolidated balance sheets. The contractual or notional amount of these instruments indicates a level of activity associated with a particular class of financial instrument and is not a reflection of the level of expected losses, if any.

The Company's exposure to credit loss in the event of non-performance by the other party to the financial instrument for commitments to extend credit is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments. The following table summarizes the outstanding commitments as of the dates indicated:

(In thousands)	At September 30, 2009	At December 31, 2008
Commitments to extend credit	\$ 1,585,758	\$ 2,047,985
Standby letters of credit	57,284	79,423
Other letters of credit	60,267	66,220
Bill of lading guarantees	44	493
Total	<u>\$ 1,703,353</u>	<u>\$ 2,194,121</u>

As of September 30, 2009, \$11.1 million unfunded commitments for affordable housing investments were recorded under other liabilities compared to \$22.1 million at December 31, 2008.

Commitments to extend credit are agreements to lend to a customer provided there is no violation of any condition established in the commitment agreement. These commitments generally have fixed expiration dates and the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained if deemed necessary by the Company upon extension of credit is based on management's credit evaluation of the borrower. Letters of credit, including standby letters of credit and bill of lading guarantees, are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. The credit risk involved in issuing these types of instruments is essentially the same as that involved in making loans to customers.

11. Securities Sold Under Agreements to Repurchase

Securities sold under agreements to repurchase were \$1.6 billion with a weighted average rate of 4.20% at September 30, 2009, compared to \$1.6 billion with a weighted average rate of 3.95% at December 31, 2008. Seventeen floating-to-fixed rate agreements totaling \$900.0 million are with initial floating rates for a period of time ranging from nine months to one year, with the floating rates ranging from the three-month LIBOR minus 100 basis points to the three-month LIBOR minus 340 basis points. Thereafter, the rates are fixed for the remainder of the term, with interest rates ranging from 4.29% to 5.07%. After the initial floating rate term, the counterparties have the right to terminate the transaction at par at the fixed rate reset date and quarterly thereafter. Thirteen fixed-to-floating rate agreements totaling \$650.0 million are with initial fixed rates ranging from 1.00% and 3.50% with initial fixed rate terms ranging from nine months to eighteen months. For the remainder of the seven year term, the rates float at 8% minus the three-month LIBOR rate with a maximum rate ranging from 3.25% to 3.75% and minimum rate of 0.0%. After the initial fixed rate term, the counterparties have the right to terminate the transaction at par at the floating rate reset date and quarterly thereafter. The table below provides summary data for securities sold under agreements to repurchase as of September 30, 2009:

Securities Sold Under Agreements to Repurchase

(Dollars in millions)	Fixed-to-floating				Floating-to-fixed				Total
	All callable at September 30, 2009				All callable at September 30, 2009				
Rate type	Float Rate				Fixed Rate				
Rate index	8% minus 3 month LIBOR								
Maximum rate	3.75%	3.50%	3.50%	3.25%					
Minimum rate	0.0%	0.0%	0.0%	0.0%					
No. of agreements	3	5	4	1	2	1	10	4	30
Amount	\$ 150.0	\$ 250.0	\$ 200.0	\$ 50.0	\$ 100.0	\$ 50.0	\$ 550.0	\$ 200.0	\$ 1,550.0
Weighted average rate	3.75%	3.50%	3.50%	3.25%	4.77%	4.83%	4.54%	5.00%	4.20%
Final maturity	2014	2014	2015	2015	2011	2012	2014	2017	

These transactions are accounted for as collateralized financing transactions and recorded at the amounts at which the securities were sold. The Company may have to provide additional collateral for the repurchase agreements, as necessary. The underlying collateral pledged for the repurchase agreements consists of U.S. Treasury securities, U.S. government agency security debt, and mortgage-backed securities with a fair value of \$1.8 billion as of September 30, 2009, and \$1.7 billion as of December 31, 2008.

12. Advances from the Federal Home Loan Bank

Total advances from the FHLB of San Francisco decreased \$520.0 million to \$929.4 million at September 30, 2009 from \$1.45 billion at December 31, 2008. Non-puttable advances totaled \$229.4 million with a weighted rate of 4.76% and puttable advances totaled \$700.0 million with a weighted average rate of 4.42% at September 30, 2009. The FHLB has the right to terminate the puttable transaction at par at each three-month anniversary after the first puttable date. As of September 30, 2009, all puttable FHLB advances were puttable but FHLB had not exercised its right to terminate any of the puttable transactions.

13. Subordinated Note and Junior Subordinated Debt

On September 29, 2006, the Bank issued \$50.0 million in subordinated debt in a private placement transaction ("Bank Subordinated Securities"). The debt has a maturity term of 10 years, is unsecured and bears interest at a rate of three month LIBOR plus 110 basis points, payable on a quarterly basis. At September 30, 2009, the per annum interest rate on the subordinated debt was 1.38% compared to 2.56% at December 31, 2008. The subordinated debt was issued through the Bank and qualifies as Tier 2 capital for regulatory reporting purposes and is included in long-term debt in the accompanying condensed consolidated balance sheets.

The Bancorp established three special purpose trusts in 2003 and two in 2007 for the purpose of issuing trust preferred securities to outside investors ("Capital Securities"). The trusts exist for the purpose of issuing the Capital Securities and investing the proceeds thereof, together with proceeds from the purchase of the common stock of the trusts by the Bancorp ("Junior Subordinated Securities"), in junior subordinated notes issued by the Bancorp. The five special purpose trusts are considered variable interest entities under GAAP. Because the Bancorp is not the primary beneficiary of the trusts, the financial statements of the trusts are not included in the consolidated financial statements of the Company. At September 30, 2009, junior subordinated debt securities totaled \$121.1

million with a weighted average interest rate of 2.46% compared to \$121.1 million with a weighted average rate of 4.02% at December 31, 2008. The junior subordinated debt securities have a stated maturity term of 30 years and are currently included in the Tier 1 capital of the Bancorp for regulatory capital purposes.

14. Income Taxes and Implementation of FASB Interpretation No. 48

The income tax benefit totaled \$35.4 million, or an effective tax benefit rate of 52.4% for the first nine months of 2009 compared to income tax expense of \$30.1 million, or effective tax rate of 36.1%, for the same period a year ago. Income tax benefit/expense results in effective tax rates that differ from the statutory Federal income tax rate for the periods indicated as follows:

	Nine Months Ended September 30,			
	2009			2008
	(In thousands)			
Tax provision at Federal statutory rate	\$(23,616)	35.0%	\$ 29,244	35.0%
State income taxes, net of Federal income tax benefit	(3,856)	5.7	5,332	6.4
Interest on obligations of state and political subdivisions, which are exempt from Federal taxation	(212)	0.3	(333)	(0.4)
Low income housing tax credit	(8,089)	12.0	(7,123)	(8.5)
Agency preferred stock write-down	-	-	4,632	5.5
Other, net	411	(0.6)	(1,619)	(1.9)
Total income tax (benefit)/expense	<u>\$ (35,362)</u>	<u>52.4%</u>	<u>\$ 30,133</u>	<u>36.1%</u>

As previously disclosed, on December 31, 2003, the California Franchise Tax Board (FTB) announced its intent to list certain transactions that in its view constitute potentially abusive tax shelters. Included in the transactions subject to this listing were transactions utilizing regulated investment companies (RICs) and real estate investment trusts (REITs). While the Company continues to believe that the tax benefits recorded in 2000, 2001, and 2002 with respect to its regulated investment company were appropriate and fully defensible under California law, the Company participated in Option 2 of the Voluntary Compliance Initiative of the Franchise Tax Board, and paid all California taxes and interest on these disputed 2000 through 2002 tax benefits, and at the same time filed a claim for refund for these years while avoiding certain potential penalties. The Company expects to resolve the California tax audits of its 2000 through 2002 tax years without any additional accruals.

In May 2009, the Company filed amended California tax returns for tax years 2003 through 2007. The Company paid California income tax of \$5.5 million and interest of \$1.2 million, substantially all of which had previously been recorded as unrecognized tax benefits.

The Company recognizes accrued interest and penalties relating to unrecognized tax benefits as an income tax provision expense. The Company had approximately \$0.3 million of accrued interest and penalties as of September 30, 2009 and \$1.9 million of accrued interest and penalties as of December 31, 2008.

The Company's tax returns are open for audits by the Internal Revenue Service back to 2005 and by the Franchise Tax Board of the State of California back to 2000. The Company is currently under audit by the California Franchise Tax Board for the years 2000 to 2004.

15. Sales of Common Stock

On September 9, 2009, the Company commenced a \$75 million at-the-market common stock offering. Through September 30, 2009, the Company raised \$31.4 million in additional capital through the sale of 3,490,000 shares of common stock from its at-the-market common stock offering.

16. Fair Value Measurements

ASC Topic 820 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. The Company adopted ASC Topic 820 on January 1, 2008, and determined the fair values of our financial instruments based on the following:

- Level 1 - Quoted prices in active markets for identical assets or liabilities.
- Level 2 - Observable prices in active markets for similar assets or liabilities; prices for identical or similar assets or liabilities in markets that are not active; directly observable market inputs for substantially the full term of the asset and liability; market inputs that are not directly observable but are derived from or corroborated by observable market data.
- Level 3 – Unobservable inputs based on the Company’s own judgments about the assumptions that a market participant would use.

The Company uses the following methodologies to measure the fair value of its financial assets on a recurring basis:

Securities available for sale. For certain actively traded agency preferred stocks and U.S. Treasury securities, the Company measures the fair value based on quoted market prices in active exchange markets at the reporting date, a Level 1 measurement. The Company also measures securities by using quoted market prices for similar securities or dealer quotes, a Level 2 measurement. This category generally includes U.S. Government agency securities, state and municipal securities, mortgage-backed securities (“MBS”), commercial MBS, collateralized mortgage obligations, asset-backed securities and corporate bonds.

Trading securities. The Company measures the fair value of trading securities based on quoted market prices in active exchange markets at the reporting date, a Level 1 measurement.

Impaired loans. The Company does not record loans at fair value on a recurring basis. However, from time to time, nonrecurring fair value adjustments to collateral dependent impaired loans are recorded based on either current appraised value of the collateral, a Level 2 measurement, or management’s judgment and estimation of value reported on old appraisals which are then adjusted based on recent market trends, a Level 3 measurement.

Other real estate owned. Real estate acquired in the settlement of loans is initially recorded at fair value, less estimated costs to sell. The Company records other real estate owned at fair value on a non-recurring basis. However, from time to time, nonrecurring fair value adjustments to other real estate owned are recorded based on current appraised value of the property, a Level 2 measurement, or management’s judgment and estimation based on reported appraisal value, a Level 3 measurement.

Equity investments. The Company records equity investments at fair value on a nonrecurring basis. However, from time to time, nonrecurring fair value adjustments to equity investments are recorded based on quoted market prices in active exchange market at the reporting date, a Level 1 measurement.

Warrants. The Company measures the fair value of warrants based on unobservable inputs based on assumption and management judgment, a Level 3 measurement.

Currency Option Contracts and Foreign Exchange Contracts. The Company measures the fair value of currency option and foreign exchange contracts based on dealer quotes on a recurring basis, a Level 2 measurement.

Interest Rate Swaps. Fair value of interest rate swaps was derived from observable market prices for similar assets on a recurring basis, a level 2 measurement.

The following table presents the Company's hierarchy for its assets and liabilities measured at fair value on a recurring and non-recurring basis at September 30, 2009:

	Fair Value Measurements Using			Total at Fair Value
	Level 1	Level 2	Level 3	
(In thousands)				
Assets

(1) Other real estate owned balance of \$87.8 million in the consolidated balance sheet is net of estimated disposal costs.

For assets measured at fair value on a nonrecurring basis, the following table summarizes the total losses recognized for the period indicated:

(In thousands)	For the three months ended	For the nine months ended
	September 30, 2009	September 30, 2009
Impaired loans.....	(22,886)	(39,501)
Other real estate owned.....	(2,548)	(18,050)
Equity investment.....	-	-
Total losses recognized	\$ (25,434)	\$ (57,551)

The Company measured the fair value of its warrants on a recurring basis using significant unobservable inputs. The fair value of warrants was \$103,000 at September 30, 2009, compared to \$122,000 at December 31, 2008. The fair value adjustment of \$19,000 was included in other operating income in 2009.

17. Fair Value of Financial Instruments

The Company uses following methods and assumptions to estimate the fair value of each class of financial instruments.

Cash and Cash Equivalents. For cash and cash equivalents, the carrying amount was assumed to be a reasonable estimate of fair value.

Short-term Investments. For short-term investments, the carrying amount was assumed to be a reasonable estimate of fair value.

Securities purchased under agreements to resell The fair value of the agreements to resell is based on dealer quotes.

Securities. For securities including securities held-to-maturity, available-for-sale and for trading, fair values were based on quoted market prices at the reporting date. If a quoted market price was not available, fair value was estimated using quoted market prices for similar securities or dealer quotes.

Loans. Fair values were estimated for portfolios of loans with similar financial characteristics. Each loan category was further segmented into fixed and adjustable rate interest terms and by performing and non-performing categories.

The fair value of performing loans was calculated by discounting scheduled cash flows through the estimated maturity using estimated market discount rates that reflect the credit and interest rate risk inherent in the loan.

The entire allowance for credit losses was applied to classified loans including non-accruals. Accordingly, they are considered to be carried at fair value as the allowance for credit losses represents the estimated discount for credit risk for the applicable loans.

Deposit Liabilities. The fair value of demand deposits, savings accounts, and certain money market deposits was assumed to be the amount payable on demand at the reporting date. The fair value of fixed-maturity certificates of deposit was estimated using the rates currently offered for deposits with similar remaining maturities.

Securities Sold under Agreements to Repurchase. The fair value of the repurchase agreements is based on dealer quotes.

Advances from Federal Home Loan Bank. The fair value of the advances is based on quotes from the FHLB to settle the advances.

Other Borrowings. This category includes federal funds purchased, revolving line of credit, and other short-term borrowings. The fair value of other borrowings is based on current market rates for borrowings with similar remaining maturities.

Subordinated Debt. The fair value of subordinated debt is estimated based on the current spreads to LIBOR for subordinated debt.

Junior Subordinated Notes. The fair value of the Junior Subordinated Notes is estimated based on the current spreads to LIBOR for junior subordinated notes.

Off-Balance-Sheet Financial Instruments. The fair value of commitments to extend credit, standby letters of credit, and financial guarantees written were estimated using the fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the present creditworthiness of the counter-parties. The fair value of guarantees and letters of credit was based on fees currently charged for similar agreements or on the estimated cost to terminate them or otherwise settle the obligations with the counter-parties at the reporting date.

Fair value estimates were made at specific points in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Bank's entire holdings of a particular financial instrument. Because no market exists for a significant portion of the Bank's financial instruments, fair value estimates were based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates were subjective in nature and involved uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

18. Goodwill and Goodwill Impairment

The Company's policy is to assess goodwill for impairment at the reporting unit level on an annual basis or between annual assessments if a triggering event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. Impairment is the condition that exists when the carrying amount of goodwill exceeds its implied fair value. Accounting standards require management to estimate the fair value of each reporting unit in making the assessment of impairment at least annually.

As a result of ongoing volatility in the financial services industry, the Company's market capitalization decreased to a level below book value as of September 30, 2009. The Company engaged an independent valuation firm to compute the fair value estimates of each reporting unit as part of its impairment assessment. The independent valuation utilized two separate valuation methodologies and applied a weighted average to each methodology in order to determine fair value for each reporting unit.

The impairment testing process conducted by the Company begins by assigning net assets and goodwill to its three reporting units- Commercial Lending, Retail Banking, and East Coast

Operations. The Company then completes “step one” of the impairment test by comparing the fair value of each reporting unit (as determined based on the discussion below) with the recorded book value (or “carrying amount”) of its net assets, with goodwill included in the computation of the carrying amount. If the fair value of a reporting unit exceeds its carrying amount, goodwill of that reporting unit is not considered impaired, and “step two” of the impairment test is not necessary. If the carrying amount of a reporting unit exceeds its fair value, step two of the impairment test is performed to determine the amount of impairment. Step two of the impairment test compares the carrying amount of the reporting unit’s goodwill to the “implied fair value” of that goodwill. The implied fair value of goodwill is computed by assuming all assets and liabilities of the reporting unit would be adjusted to the current fair value, with the offset as an adjustment to goodwill. This adjusted goodwill balance is the implied fair value used in step two. An impairment charge is recognized for the amount by which the carrying amount of goodwill exceeds its implied fair value. In connection with obtaining the independent valuation, management provided certain data and information that was utilized by the third party in its determination of fair value. This information included forecasted earnings of the Company at the reporting unit level. Management believes that this information is a critical assumption underlying the estimate of fair value.

The valuation as of September 30, 2009, indicated that the fair value for the Retail Banking and East Coast Operations, the only two reporting units with allocated goodwill, exceeded their carrying amounts. Consequently, no goodwill impairment charge was recorded as of September 30, 2009. While management uses the best information available to estimate future performance for each reporting unit, future adjustments to management’s projections may be necessary if conditions differ substantially from the assumptions used in making the estimates.

19. Financial Derivatives

It is the policy of the Company not to speculate on the future direction of interest rates. However, the Company enters into financial derivatives in order to seek mitigation of exposure to interest rate risks related to our interest-earning assets and interest-bearing liabilities. We believe that these transactions, when properly structured and managed, may provide a hedge against inherent interest rate risk in the Company’s assets or liabilities and against risk in specific transactions. In such instances, the Company may protect its position through the purchase or sale of interest rate futures contracts for a specific cash or interest rate risk position. Other hedge transactions may be implemented using interest rate swaps, interest rate caps, floors, financial futures, forward rate agreements, and options on futures or bonds. Prior to considering any hedging activities, we seek to analyze the costs and benefits of the hedge in comparison to other viable alternative strategies. All hedges will require an assessment of basis risk and must be approved by the Bank’s Investment Committee.

The Company follows ASC Topic 815 which established accounting and reporting standards for financial derivatives, including certain financial derivatives embedded in other contracts, and hedging activities. It requires the recognition of all financial derivatives as assets or liabilities in the Company’s consolidated balance sheet and measurement of those financial derivatives at fair value. The accounting treatment of changes in fair value is dependent upon whether or not a financial derivative is designated as a hedge and if so, the type of hedge.

In the third quarter of 2009, we entered into five interest rate swap agreements with two major financial institutions in the notional amount of \$300.0 million for a period of three years. These

interest rate swaps were not structured to hedge against inherent interest rate risks related to our interest-earning assets and interest-bearing liabilities. At September 30, 2009, the Company paid fixed rate at weighted average rate of 1.95% and received floating 3-month Libor rate at weighted average rate of 0.36%. The net amount accrued on these interest rate swaps of \$402,000 for the three months and for the nine months ended September 30, 2009 were recorded to reduce other non-interest income. At September 30, 2009, the Company recorded \$936,000 within other liabilities to recognize the negative fair value of these interest rate swaps.

The Company enters into foreign exchange forward contracts and foreign currency option contracts with various counterparties to mitigate the risk of fluctuations in foreign currency exchange rates, for foreign exchange certificates of deposit, foreign exchange contracts or foreign currency option contracts entered into with our clients. These contracts are not designated as hedging instruments and are recorded at fair value in our consolidated balance sheets. Changes in the fair value of these contracts as well as the related foreign exchange certificates of deposit, foreign exchange contracts or foreign currency option contracts are recognized immediately in net income as a component of non-interest income. Period end gross positive fair values are recorded in other assets and gross negative fair values are recorded in other liabilities. At September 30, 2009, the notional amount of option contracts totaled \$8.3 million and with a net positive fair value of \$144,000, the notional amount of spot and forward contracts totaled \$75.0 million and with a positive fair value of \$11.8 million, the notional amount of spot and forward contracts totaled \$21.2 million and with a negative fair value of \$296,000.

20. Subsequent Events

The Company has evaluated subsequent events through November 6, 2009, the date these consolidated financial statements were issued.

On October 12, 2009, the Company terminated its at-the-market common stock program and commenced a public offering of \$70.4 million of common stock. On October 13, 2009, the Company sold 8,756,756 shares of its common stock (including 1,142,185 shares through the underwriter's over subscription option) through a follow on public offering and raised \$76.0 million in additional capital which was net of underwriter's discount and professional expenses totaling \$5.0 million. The Company closed its public common stock offering on October 19, 2009.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion is given based on the assumption that the reader has access to and has read the Annual Report on Form 10-K for the year ended December 31, 2008, of Cathay General Bancorp ("Bancorp") and its wholly-owned subsidiary Cathay Bank (the "Bank" and, together, the "Company" or "we", "us," or "our").

Critical Accounting Policies

The discussion and analysis of the Company's unaudited condensed consolidated balance sheets and results of operations are based upon its unaudited condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of

America. The preparation of these consolidated financial statements requires management to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities at the date of our financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Accounting for the allowance for credit losses involves significant judgments and assumptions by management, which have a material impact on the carrying value of net loans; management considers this accounting policy to be a critical accounting policy. The judgments and assumptions used by management are based on historical experience and other factors, which are believed to be reasonable under the circumstances as described under the heading “Accounting for the Allowance for Loan Losses” in the Company’s annual report on Form 10-K for the year ended December 31, 2008.

Accounting for investment securities involves significant judgments and assumptions by management, which have a material impact on the carrying value of securities and the recognition of any “other-than-temporary” impairment to our investment securities. The judgments and assumptions used by management are described under the heading “Investment Securities” in the Company’s annual report on Form 10-K for the year ended December 31, 2008.

Accounting for income taxes involves significant judgments and assumptions by management, which have a material impact on the amount of taxes currently payable and the income tax expense recorded in the financial statements. The judgments and assumptions used by management are described under the heading “Income Taxes” in the Company’s annual report on Form 10-K for the year ended December 31, 2008.

Accounting for goodwill and goodwill impairment involves significant judgments and assumptions by management, which have a material impact on the amount of goodwill recorded and noninterest expense recorded in the financial statements. The judgments and assumptions used by management are described under the heading “Goodwill and goodwill impairment” in the Company’s annual report on Form 10-K for the year ended December 31, 2008.

HIGHLIGHTS

- Nonaccrual loans down 6% - Total nonaccrual loans decreased by 6%, or \$22.6 million, to \$360.5 million at September 30, 2009 compared to \$383.1 million at June 30, 2009.
- Total accruing delinquent loans down 50% – Total loans delinquent 30 days or more and still accruing interest decreased by 50% to \$79.3 million at September 30, 2009 compared to \$158.2 million at June 30, 2009.
- Increase in net interest margin – Net interest margin for the third quarter of 2009 increased to 2.65% from 2.49% for the second quarter of 2009.
- Allowance for credit losses strengthened – Total allowance for credit losses increased to \$194.4 million, or 2.73%, of total loans at September 30, 2009 compared to 2.42% of total loans at June 30, 2009.
- Decrease in provision for credit losses – The Company recorded a provision for credit losses of \$76.0 million during the third quarter of 2009, a decrease of \$17.0 million in the provision for credit losses, as compared to a provision of \$93.0 million during the second quarter of 2009.

- Capital strengthened – During the months of September 2009 and October 2009, the Company raised \$107.4 million in additional capital through the sale of 3.5 million shares of common stock in its at-the-market capital offering and 8.7 million shares of common stock in its public offering.

Statement of Operations Review

Net (Loss)/Income

Net loss attributable to common stockholders for the three months ended September 30, 2009 was \$21.8 million, a \$28.7 million income decrease, compared to net income attributable to common stockholders of \$6.9 million for the same period a year ago. Loss per share for the three months ended September 30, 2009, was \$0.43 compared to earnings of \$0.14 per diluted share for the same period a year ago due primarily to increases in the provision for credit losses, lower net interest income and higher provision for OREO write-downs.

Return on average stockholders' equity was negative 5.58% and return on average assets was negative 0.60% for the three months ended September 30, 2009, compared to a return on average stockholders' equity of 2.71% and a return on average assets of 0.25% for the same period of 2008

Financial Performance

	Third Quarter 2009	Third Quarter 2008
Net (loss)/income	(\$17.7) million	\$6.9 million
Net (loss)/income available to common stockholders	(\$21.8) million	\$6.9 million
(Loss)/basic earnings per common share	(\$0.43)	\$0.14
(Loss)/ diluted earnings per common share	(\$0.43)	\$0.14

Net Interest Income Before Provision for Credit Losses

Net interest income before provision for credit losses decreased to \$72.5 million during the third quarter of 2009, a decline of \$1.1 million, or 1.5%, compared to \$73.6 million during the same quarter a year ago. The decrease was due primarily to the increases in interest expense paid for securities sold under agreements to repurchase.

The net interest margin, on a fully taxable-equivalent basis, was 2.65% for the third quarter of 2009. The net interest margin increased 16 basis points from 2.49% in the second quarter of 2009, and decreased 23 basis points from 2.88%, on a fully taxable-equivalent basis, in the third quarter of 2008. The decrease in net interest margin from the prior year primarily resulted from increases in non-accrual loans and the increase in the borrowing rate on our long term repurchase agreements and other borrowed funds. The majority of our variable rate loans contain interest rate floors, which help limit the impact of the recent decreases in the prime interest rate.

For the third quarter of 2009, the yield on average interest-earning assets was 4.82%, on a fully taxable-equivalent basis, the cost of funds on average interest-bearing liabilities equaled 2.48%, and the cost of interest bearing deposits was 1.80%. In comparison, for the third quarter of 2008, the yield on average interest-earning assets was 5.70%, on a fully taxable-equivalent basis, cost of funds on average interest-bearing liabilities equaled 3.21%, and the cost of interest bearing deposits was 2.84%.

The interest spread, defined as the difference between the yield on average interest-earning assets and the cost of funds on average interest-bearing liabilities, decreased 15 basis points to 2.34% for the third quarter ended September 30, 2009, from 2.49% for the same quarter a year ago, primarily due to the reasons discussed above.

The cost of deposits, including demand deposits, decreased 33 basis points to 1.62% in the third quarter of 2009 compared to 1.95% in the second quarter of 2009 due primarily to growth in core deposits and decreased 89 basis points from 2.51% in the third quarter of 2008 due partly to decrease in market rates and partly to growth in core deposits.

Average daily balances, together with the total dollar amounts, on a taxable-equivalent basis, of interest income and interest expense, and the weighted-average interest rate and net interest margin are as follows:

Interest-Earning Assets and Interest-Bearing Liabilities

Three months ended September 30, (Dollars in thousands)	2009			2008

Net interest margin (4)			2.65%			2.88%

(1) Yields and amounts of interest earned include loan fees. Non-accrual loans are included in the average balance.

(2) Calculated by dividing net interest income by average outstanding interest-earning assets

(3) The average yield has been adjusted to a fully taxable-equivalent basis for certain securities of states and political subdivisions and other securities held using a statutory Federal income tax rate of 35%

(4) Net interest income, net interest spread, and net interest margin on interest-earning assets have been adjusted to a fully taxable-equivalent basis using a statutory Federal income tax rate of 35%

The following table summarizes the changes in interest income and interest expense attributable to changes in volume and changes in interest rates:

Taxable-Equivalent Net Interest Income — Changes Due to Rate and Volume(1)
 Three months ended September 30,
 2009-2008

(Dollars in thousands)	Increase (Decrease) in Net Interest Income Due to:		
	Changes in Volume	Changes in Rate	Total Change
Interest-Earning Assets:			
Loans and leases	(3,150)	(11,267)	(14,417)
Taxable securities	8,912	(4,898)	4,014
Tax-exempt securities (2)	(440)	(171)	(611)
Federal Home Loan Bank Stock	105	(960)	(855)
Deposits with other banks	112	(35)	77
Federal funds sold and securities purchased under agreements to resell	(893)	(1,971)	(2,864)
Total increase in interest income	4,646	(19,302)	(14,656)
Interest-Bearing Liabilities:			
Interest bearing demand accounts	53	(123)	(70)
Money market accounts	855	(570)	285
Savings accounts	1	(80)	(79)
Time deposits	3,563	(16,178)	(12,615)
Federal funds purchased	(115)	(90)	(205)
Securities sold under agreements to repurchase	64	1,317	1,381
Other borrowed funds	(2,129)	1,006	(1,123)
Long-term debts	-	(963)	(963)
Total increase in interest expense	2,292	(15,681)	(13,389)
Changes in net interest income	\$ 2,354	\$ (3,621)	\$ (1,267)

(1) Changes in interest income and interest expense attributable to changes in both volume and rate have been allocated proportionately to changes due to volume and changes due to rate.

(2) The amount of interest earned on certain securities of states and political subdivisions and other securities held has been adjusted to a fully taxable-equivalent basis, using a statutory federal income tax rate of 35%.

Provision for Loan Losses

The provision for credit losses was \$76.0 million for the third quarter of 2009 compared to \$93.0 million for the second quarter of 2009 and compared to \$15.8 million in the third quarter of 2008. The provision for credit losses was based on the review of the adequacy of the allowance for loan losses at September 30, 2009. The provision for credit losses represents the charge against current earnings that is determined by management, through a credit review process, as the amount needed to establish an allowance that management believes to be sufficient to absorb credit losses inherent in the Company's loan portfolio, including unfunded commitments. The following table summarizes the charge-offs and recoveries for the periods as indicated:

(In thousands)	For the three months ended September 30,		For the nine months ended September 30,	
	2009	2008	2009	2008
Charge-offs:				
Commercial loans	\$ 27,492	\$ 6,796	\$ 49,657	\$ 8,917
Construction loans- residential	13,126	3,230	58,535	8,239
Construction loans- other	1,966	-	10,734	-
Real estate loans	12,094	172	26,550	554
Real estate- land loans	3,865	-	7,599	339
Installment and other loans	-	-	4	-
Total charge-offs	<u>58,543</u>	<u>10,198</u>	<u>153,079</u>	<u>18,049</u>
Recoveries:				
Commercial loans	219	1,067	523	1,634
Construction loans- residential	598	-	772	83
Construction loans- other	-	-	1	-
Real estate loans	46	-	46	-
Real estate- land loans	685	-	686	-
Installment and other loans	2	4	19	16
Total recoveries	<u>1,550</u>	<u>1,071</u>	<u>2,047</u>	<u>1,733</u>
Net Charge-offs	<u>\$ 56,993</u>	<u>\$ 9,127</u>	<u>\$ 151,032</u>	<u>\$ 16,316</u>

Total charge-offs of \$58.5 million for the third quarter of 2009 included \$13.1 million of charge-offs on twelve residential construction loans, \$2.0 million of charge-offs on commercial property construction loans, \$10.6 million of charge-offs on commercial real estate loans, \$27.5 million on 25 commercial loans, \$1.5 million charge-offs on residential mortgage loans, and \$3.8 million of charge-offs on land loans. Net loan charge-offs increased from \$56.0 million in the second quarter of 2009 to \$57.0 million in the third quarter of 2009 and compared to \$9.1 million in the third quarter of last year. Net loan charge-offs remained high in the third quarter as a result of the continuing weak economy.

Non-Interest Income

Non-interest income, which includes revenues from depository service fees, letters of credit commissions, securities gains (losses), gains (losses) on loan sales, wire transfer fees, and other sources of fee income, was \$10.3 million for the third quarter of 2009, an increase of \$18.7 million compared to the non-interest loss of \$8.4 million for the third quarter of 2008. The increase in non-interest income was primarily due to net securities losses in 2008 of \$15.3 million. In the third quarter of 2009, net gains on sales of agency mortgage-backed securities were \$2.9 million compared to a \$27.8 million other-than-temporary impairment charge on agency preferred stock which was partially offset by net gains of \$12.5 million from sales of agency mortgage-backed securities in the same quarter a year ago. In the third quarter of 2009, the Company sold an aircraft owned through a leveraged lease and recorded a \$3.3 million gain included in other operating income. Offsetting the above gains were losses of \$1.3 million from interest rate swap agreements, a decrease of \$1.0 million from foreign exchange and currency transaction commissions, and \$328,000 from higher write-downs of venture capital investments.

Non-Interest Expense

Non-interest expense increased \$3.8 million, or 10.8%, to \$38.8 million in the third quarter of 2009 compared to \$35.0 million in the same quarter a year ago. The efficiency ratio was 46.87% in the third quarter of 2009 compared to 53.69% for the same period a year ago due to the securities losses recorded in the prior year.

OREO expense increased \$2.9 million to \$4.1 million in the third quarter of 2009 from \$1.2 million in the same quarter a year ago primarily due to higher OREO provision and expense resulting from increased OREO activities.

FDIC and State assessments increased \$3.2 million to \$4.5 million in the third quarter of 2009 from \$1.3 million in the same quarter a year ago due to a higher assessment rate. Occupancy expense increased \$606,000 primarily due to increases in depreciation expense of \$782,000 primarily related to our new administrative offices at 9650 Flair Drive, El Monte which opened in January 2009, which were partially offset by lower rental expense of \$206,000. Professional service expense increased \$284,000, or 8.3%, primarily due to increases in credit appraisal expenses, legal expenses, and collection expenses.

Offsetting the above described increases were decreases of \$2.0 million in salaries and employee benefits and decreases of \$1.4 million expense from operations of affordable housing investments. Salaries and employee benefits decreased primarily due to a \$665,000 decrease in option compensation expense, a \$556,000 decrease in bonus accruals, and a \$331,000 decrease in salaries. Expense from operations of affordable housing investments decreased as the result of an expense reversal of \$494,000 to the prior year's estimated losses in the third quarter of 2009 compared to additional expense adjustment of \$577,000 in the same quarter a year ago.

Income Taxes

The effective tax rate was 51.7% for the third quarter of 2008 and 27.9% for the full year 2008. The tax benefit for the third quarter of 2009 resulted from the pretax loss for the quarter and the utilization of low income housing tax credits.

Year-to-Date Statement of Operations Review

Net loss available to common stockholders for the first nine months of 2009 was \$44.4 million, an \$97.8 million, or 183%, decrease compared to net income available to common stockholders of \$53.4 million for the same period a year ago. Loss per share was \$0.89 compared to earnings of \$1.08 per diluted share for the same period a year ago due primarily to increases in the provision for loan losses, lower net interest income and higher provision for OREO write-downs. The net interest margin for the nine months ended September 30, 2009, decreased 38 basis points to 2.61% compared to 2.99% for the same period a year ago.

Return on average stockholders' equity was negative 3.35% and return on average assets was negative 0.37% for the nine months ended September 30, 2009, compared to a return on average stockholders' equity of 7.09% and a return on average assets of 0.67% for the same period of 2008. The efficiency ratio for the nine months ended September 30, 2009 was 46.66% compared to 44.00% for the same period a year ago.

The average daily balances, together with the total dollar amounts, on a taxable-equivalent basis, of interest income and interest expense, and the weighted-average interest rates, the net interest spread and the net interest margins are as follows:

Interest-Earning Assets and Interest-Bearing Liabilities

Nine months ended September 30,	2009			2008		
	Average Balance	Interest Income/Expense	Average Yield/Rate (1)(2)	Average Balance	Interest Income/Expense	Average Yield/Rate (1)(2)

- (1) Yields and amounts of interest earned include loan fees. Non-accrual loans are included in the average balance.
- (2) Calculated by dividing net interest income by average outstanding interest-earning assets.
- (3) The average yield has been adjusted to a fully taxable-equivalent basis for certain securities of states and political subdivisions and other securities held using a statutory Federal income tax rate of 35%.
- (4) Net interest income, net interest spread, and net interest margin on interest-earning assets have been adjusted to a fully taxable-equivalent basis using a statutory Federal income tax rate of 35%.

Changes in net interest income	\$ 13,822	\$ (26,591)	\$ (12,769)

- (1) Changes in interest income and interest expense attributable to changes in both volume and rate have been allocated proportionately to changes due to volume and changes due to rate.
- (2) The amount of interest earned on certain securities of states and political subdivisions and other securities held has been adjusted to a fully taxable-equivalent basis, using a statutory federal income tax rate of 35%.

Balance Sheet Review

Assets

Total assets increased by \$167.1 million, or 1.4%, to \$11.7 billion at September 30, 2009, from \$11.6 billion at December 31, 2008 primarily due to a \$211.0 million increase in securities available-for-sale and a \$420.2 million increase in cash, due from banks and short-term investments offset by a \$422.8 million decrease in net loans.

Securities

Total securities were \$3.4 billion, or 28.9%, of total assets at September 30, 2009, compared with \$3.1 billion, or 26.6%, of total assets at December 31, 2008. The increase of \$310.9 million was primarily due to purchase of U.S government sponsored agency securities and mortgage-backed securities.

The net unrealized gains on securities available-for-sale, which represents the difference between fair value and amortized cost, totaled \$28.4 million at September 30, 2009, compared to net unrealized gains of \$40.3 million at year-end 2008. Net unrealized gains/losses in the securities available-for-sale are included in accumulated other comprehensive income or loss, net of tax, as part of total stockholders' equity.

The average taxable-equivalent yield on securities decreased 76 basis points to 3.71% for the three months ended September 30, 2009, compared with 4.47% for the same period a year ago, as securities were sold, matured, prepaid, or were called and proceeds were reinvested at lower interest rates.

The following tables summarize the composition, amortized cost, gross unrealized gains, gross unrealized losses, and fair value of securities available-for-sale, as of September 30, 2009, and December 31, 2008:

(1) Securities reflect stated maturities and do not reflect the impact of anticipated prepayments.

(2) There is no stated maturity for equity securities.

Between 2002 and 2004, the Company purchased a number of mortgage-backed securities and collateralized mortgage obligations comprised of interests in non-agency guaranteed residential mortgages. At September 30, 2009, the remaining par value was \$14.0 million for these mortgage-backed securities with unrealized losses of \$1.4 million and \$121.0 million for collateralized mortgage obligations with unrealized losses of \$2.4 million. The remaining par value of these securities totaled \$135.0 million which represents 4.1% of the fair value of the Company's securities available-for-sale and 1.1% of the Company's total assets. At September 30, 2009, the unrealized loss for these securities totaled \$3.8 million which represented 2.8% of the par amount of these non-agency guaranteed residential mortgages and resulted from increases in credit spreads subsequent to the date that these securities were purchased. Based on the Company's analysis at September 30, 2009, there was no "other-than-temporary" impairment in these securities due to the low loan to value ratio for the loans underlying these securities, the credit support provided by junior tranches of these securitizations, and the continued AAA rating for all but five issues of these securities. The Company's analysis also indicated the continued full ultimate collection of principal and interest for the five issues that were no longer rated AAA.

The Company's unrealized loss on investments in corporate bonds relates to two investments in bonds of financial institutions in the amounts of \$10 million and \$250,000, all of which were investment grade at the date of acquisition and as of September 30, 2009. The unrealized losses of \$676,000 were primarily caused by the widening of credit spreads since the dates of acquisition. The contractual terms of those investments do not permit the issuers to settle the security at a price less than the amortized cost of the investment. The Company currently does not believe it is probable that it will be unable to collect all amounts due according to the contractual terms of the investment. Therefore, it is expected that these debentures would not be settled at a price less than the amortized cost of the investment.

ASC Topic 320 changes the requirements for recognizing other-than-temporary impairment (OTTI) for debt securities. ASC Topic 320 requires an entity to assess whether the entity has the intent to sell the debt security or more likely than not will be required to sell the debt security before its anticipated recovery. The Company has no intent to sell and will not be required to sell available-for-sale securities that decline below their cost before their anticipated recovery. At September 30, 2009, there

was no other-than-temporary impairment related to credit losses to be recognized in earnings. Other-than-temporary impairment related to all other factors was recognized in other comprehensive income.

The temporarily impaired securities represent 5.2% of the fair value of securities available-for-sale as of September 30, 2009. Unrealized losses for securities with unrealized losses for less than twelve months represent 2.1%, and securities with unrealized losses for twelve months or more represent 3.8% of the historical cost of these securities and generally resulted from increases in interest rates subsequent to the date that these securities were purchased. All of these securities are investment grade as of September 30, 2009. At September 30, 2009, 39 issues of securities had unrealized losses for 12 months or longer and 8 issues of securities had unrealized losses of less than 12 months. The table below shows the fair value, unrealized losses, and number of issuances as of September 30, 2009, of the temporarily impaired securities in the Company's available-for-sale securities portfolio:

Temporarily Impaired Securities as of September 30, 2009

Description of securities	Less than 12 months			12 months or longer			Total		
	Fair Value	Unrealized Losses	No. of Issuances	Fair Value	Unrealized Losses	No. of Issuances	Fair Value	Unrealized Losses	No. of Issuances

On June 19, 2009, the Company securitized \$13.9 million of real estate mortgage loans through Federal Home Loan Mortgage Corporation ("FHLMC") and recognized mortgage servicing assets of \$139,000 for the servicing rights it retained. On June 26, 2009, the Company sold all of the resulting securities of \$13.9 million and recognized gains on sale of securities of \$492,000. Prior to June 2009, the Company had no securitization transactions.

In August, 2009, the Company purchased U.S. government agency securities at par of \$100.0 million and classified them as securities held-to-maturity securities. Book value for securities held-to-maturity were \$99.9 million at September 30, 2009 and zero at September 30, 2008.

Loans

Total gross loans decreased \$356.8 million, or 4.8%, to \$7.1 billion as of September 30, 2009, from \$7.5 billion as of December 31, 2008, primarily due to decreases in commercial loans of \$219.1 million, or 13.5%, and decreases in construction loans of \$198.1 million, or 21.7%. As a result of a

weak economy, declines in trade finance caused decreases in commercial loans in the first nine months of 2009.

At September 30, 2009, commercial mortgage loans represented approximately 57.9% of the Bank's gross loans compared to 55.3% at year-end 2008.

The following table sets forth the classification of loans by type, mix, and percentage change as of the dates indicated:

(Dollars in thousands)	September 30, 2009	% of Gross Loans	December 31, 2008	% of Gross Loans	% Change

Asset Quality Review

Non-performing Assets

Non-performing assets to gross loans and other real estate owned was 6.45% at September 30, 2009, compared to 3.34% at December 31, 2008. Total non-performing assets increased \$213.0 million, or 84.6%, to \$464.8 million at September 30, 2009, compared with \$251.8 million at December 31, 2008, primarily due to a \$179.3 million, or 99.0%, increase in non-accrual loans.

The following table sets forth the breakdown of non-performing assets by category as of the dates indicated:

(Dollars in thousands)	<u>September 30, 2009</u>	<u>December 31, 2008</u>	<u>% Change</u>
Non-performing assets			
Accruing loans past due 90 days or more	\$ 16,507	\$ 6,733	145

Total	<u>\$ 335,026</u>	<u>\$ 25,479</u>	<u>\$ 160,298</u>	<u>\$ 20,904</u>

(1) Real estate includes commercial mortgage loans, real estate construction loans, and residential mortgage loans.

Included in nonaccrual commercial real estate loans is a loan with an outstanding balance of \$47.6 million to a borrower who filed for bankruptcy in March 2009. While the loan is non-accrual at September 30, 2009, management believes that the value of the underlying real estate collateral is sufficient for a full collection of principal and interest. Nonaccrual loans also include those troubled debt restructurings that do not qualify for accrual status.

Other Real Estate Owned

At September 30, 2009, net carrying value of other real estate owned increased \$26.8 million, or 43.8%, to \$87.8 million from \$61.0 million at December 31, 2008. At September 30, 2009, \$51.7 million of OREO was located in California, \$25.1 million of OREO was located in Texas, \$5.0 million of OREO was located in state of Washington, \$4.5 million of OREO was located in Nevada, and \$1.5 million was located in all other states. At September 30, 2009, OREO by type was comprised of residential properties of \$3.5 million, or 3.9%, retail stores, office building, shopping centers and other non-farm non-residential properties of \$8.2 million, or 9.4%, residential-zoned land of \$20.4 million, or 23.2%, residential construction of \$28.0 million, or 31.9%, and non-farm non-residential construction of \$27.7 million, or 31.6%.

Troubled Debt Restructurings

A troubled debt restructuring (“TDR”) is a formal modification of the terms of a loan when the lender, for economic or legal reasons related to the borrower’s financial difficulties, grants a concession to the borrower. The concessions may be granted in various forms, including reduction in the stated interest rate, reduction in the loan balance or accrued interest, or extension of the maturity date. Although these loan modifications are considered SFAS 15 troubled debt restructurings, the loans have performed under the restructured terms and have demonstrated sustained performance under the modified terms. The sustained performance considered by management includes the periods prior to the modification if the prior performance met or exceeded the modified terms as well as cash paid to set up interest reserves.

Troubled debt restructurings on accrual status totaled \$59.4 million at September 30, 2009 and were comprised of 12 loans, an increase of \$58.5 million, compared to three loans totaling \$924,000 at December 31, 2008. A land loan of \$22.2 million in Nevada was restructured during the second quarter of 2009 to a below market interest rate and is included in the troubled debt restructured loans total. A hotel loan of \$10.3 million, two commercial real estate loans of \$12.8 million, a residential construction loan of \$10.7 million and a land loan of \$2.0 million were restructured during the third quarter of 2009.

Impaired Loans

A loan is considered impaired when it is probable that a creditor will be unable to collect all amounts due according to the contractual terms of the loan agreement based on current circumstances and events. The assessment for impairment occurs when and while such loans are on non-accrual, or the loan has been restructured. Those loans less than our defined selection criteria, generally the loan amount less than \$100,000, are treated as a homogeneous portfolio. If loans meeting the defined criteria are not collateral dependent, we measure the impairment based on the present value of the expected future cash flows discounted at the loan’s effective interest rate. If loans meeting the defined criteria are collateral dependent, we measure the impairment by using the loan’s observable market price or the fair value of the collateral. If the measurement of the impaired loan is less than the recorded amount of the loan, we then recognize impairment by creating or adjusting an existing valuation allowance with a corresponding charge to the provision for loan losses.

The Company identified impaired loans with a recorded investment of \$419.9 million at September 30, 2009, compared with \$181.2 million at year-end 2008, an increase of \$238.7 million, or 132%. The Company considers all non-accrual loans to be impaired. The following table presents impaired loans and the related allowance, as of the dates indicated:

	<u>At September 30, 2009</u>	<u>At December 31, 2008</u>
	(In thousands)	
Balance of impaired loans with no allocated allowance	\$ 268,334	\$ 79,852
Balance of impaired loans with an allocated allowance	151,571	101,350
Total recorded investment in impaired loans	<u>\$ 419,905</u>	<u>\$ 181,202</u>
Amount of the allowance allocated to impaired loans	<u>\$ 15,263</u>	<u>\$ 28,538</u>

Loan Concentration

Most of the Company's business activity is with customers located in the predominantly Asian areas of Southern and Northern California; New York City, New York; Dallas and Houston, Texas; Seattle, Washington; Boston, Massachusetts; Chicago, Illinois; and Edison, New Jersey. The Company has no specific industry concentration, and generally its loans are collateralized with real property or other pledged collateral of the borrowers. Loans are generally expected to be paid off from the operating profits of the borrowers, refinancing by another lender, or through sale by the borrowers of the secured collateral.

There were no loan concentrations to multiple borrowers in similar activities which exceeded 10% of total loans as of September 30, 2009, and as of December 31, 2008.

Allowance for Credit Losses

The Bank maintains the allowance for credit losses at a level that is considered adequate to absorb the estimated and known risks in the loan portfolio and off-balance sheet unfunded credit commitments. Allowance for credit losses is comprised of the allowance for loan losses and the reserve for off-balance sheet unfunded credit commitments. With this risk management objective, the Bank's management has an established monitoring system that is designed to identify impaired and potential problem loans, and to permit periodic evaluation of impairment and the adequacy level of the allowance for credit losses in a timely manner.

In addition, our Board of Directors has established a written credit policy that includes a credit review and control system which it believes should be effective in ensuring that the Bank maintains an adequate allowance for credit losses. The Board of Directors provides oversight for the allowance evaluation process, including quarterly evaluations, and determines whether the allowance is adequate to absorb losses in the credit portfolio. The determination of the amount of the allowance for credit losses and the provision for credit losses is based on management's current judgment about the credit quality of the loan portfolio and takes into consideration known relevant internal and external factors that affect collectibility when determining the appropriate level for the allowance for credit losses. The nature of the process by which the Bank determines the appropriate allowance for credit losses requires the exercise of considerable judgment. Additions to the allowance for credit losses are made by charges to the provision for credit losses. While management utilizes its best judgment and information available, the ultimate adequacy of the allowance is dependent upon a variety of factors beyond the Bank's control, including the performance of the Bank's loan portfolio, the economy, changes in interest rates, and the view of the regulatory authorities toward loan classifications. Identified credit exposures that are determined to be uncollectible are charged against the allowance for credit losses. Recoveries of previously charged off amounts, if any, are credited to the allowance for credit losses. A weakening of the economy or other factors that adversely affect asset quality could result in an increase in the number of delinquencies, bankruptcies, or defaults, and a higher level of non-performing assets, net charge-offs, and provision for credit losses in future periods.

The allowance for loan losses was \$189.4 million and the allowance for off-balance sheet unfunded credit commitments was \$5.0 million at September 30, 2009, and represented the amount that the Company believes to be sufficient to absorb credit losses inherent in the Company's loan portfolio. The allowance for credit losses, the sum of allowance for loan losses and for off-balance sheet unfunded credit commitments, was \$194.4 million at September 30, 2009, compared to \$129.4 million at December 31, 2008, an increase of \$65.0 million, or 50.2%. The allowance for credit losses represented 2.73% of period-end gross loans and 51.6% of non-performing loans at September 30, 2009. The comparable ratios were 1.73% of period-end gross loans and 68.9% of non-performing

loans at December 31, 2008. The following table sets forth information relating to the allowance for credit losses for the periods indicated:

	For the three months ended September 30,		For the nine months ended September 30,	
	2009	2008	2009	2008

Our allowance for loan losses consists of the following:

- **Specific allowance:** For impaired loans, we provide specific allowances based on an evaluation of impairment, and for each criticized loan, we allocate a portion of the general allowance to each loan based on a loss percentage assigned. The percentage assigned depends on a number of factors including loan classification, the current financial condition of the borrowers and guarantors, the prevailing value of the underlying collateral, charge-off history, management's knowledge of the portfolio, and general economic conditions. We periodically reviewed our

minimum loss rates for loans rated Special Mention and Substandard, and for construction loans rated Minimally Acceptable, to incorporate the results of the classification migration model reflecting actual losses.

- General allowance: The unclassified portfolio is segmented on a group basis. Segmentation is determined by loan type and by identifying risk characteristics that are common to the groups of loans. The allowance is provided to each segmented group based on the group's historical loan loss experience as well as environmental factors which include the trends in delinquency and non-accrual, and other significant factors, such as national and local economy, trends and conditions, strength of management and loan staff, underwriting standards, and the concentration of credit. Minimum loss rates have been assigned for loans graded Minimally Acceptable instead of grouping these loans with the unclassified portfolio. During the second quarter of 2009, in light of the continued deterioration in the economy and the increases in nonaccrual loans and chargeoffs, we shortened the period used in the migration analysis from five years to four years to better reflect the impact of the most recent chargeoffs, we increased the general allowance to reflect the higher loan delinquency trends, the weaker national and local economy and the increased difficulty in assigning loan grades, and we also applied the environmental factors described above to loans rated Minimally Acceptable, Special Mention and Substandard.

To determine the adequacy of the allowance in each of these two components, the Bank employs two primary methodologies, the classification migration methodology and the individual loan review analysis methodology. These methodologies support the basis for determining allocations between the various loan categories and the overall adequacy of the Bank's allowance to provide for probable losses inherent in the loan portfolio. These methodologies are further supported by additional analysis of relevant factors such as the historical losses in the portfolio, trends in the non-performing/non-accrual loans, loan delinquencies, the volume of the portfolio, peer group comparisons, and federal regulatory policy for loan and lease losses. Other significant factors of portfolio analysis include changes in lending policies/underwriting standards, portfolio composition, and concentrations of credit, and trends in the national and local economy.

With these methodologies, a general allowance is for those loans internally classified and risk graded Pass, Minimally Acceptable, Special Mention, Substandard, Doubtful, or Loss based on historical losses in the portfolio. Additionally, the Bank's management allocates a specific allowance for "Impaired Credits," in accordance with SFAS No. 114, "Accounting by Creditors for Impairment of a Loan." The level of the general allowance is established to provide coverage for management's estimate of the credit risk in the loan portfolio by various loan segments not covered by the specific allowance.

The table set forth below reflects management's allocation of the allowance for loan losses by loan category and the ratio of each loan category to the total average loans as of the dates indicated:

(Dollars in thousands)	September 30, 2009		December 31, 2008	
	Amount	Percentage of Loans in Each Category to Average Gross Loans	Amount	Percentage of Loans in Each Category to Average Gross Loans
Type of Loans:				
Commercial loans	\$ 60,211	20.5%	\$ 44,508	21.7%
Residential mortgage loans	8,621	11.1	2,678	10.2
Commercial mortgage loans	82,910	56.3	35,060	55.7
Real estate construction loans	37,609	11.8	39,820	12.1
Installment loans	19	0.2	27	0.2
Other loans	-	0.1	-	0.1
Total	<u>\$ 189,370</u>	<u>100%</u>	<u>\$ 122,093</u>	<u>100%</u>

The increase in the allowance allocated to commercial loans from \$44.5 million at year-end 2008 to \$60.2 million is due to an increase in commercial impaired loans and an increase in the environmental factors. At September 30, 2009, thirty-nine commercial loans totaling \$25.5 million were on non-accrual status and \$5.4 million of commercial loans was past due 90 days and still accruing interest. At December 31, 2008, thirty five commercial loans totaling \$20.9 million were on non-accrual status and no commercial loans was past due 90 days and still accruing interest. Commercial loans comprised 7.7% of impaired loans, 7.1% of non-accrual loans, and 32.4% of loans over 90 days still on accrual status at September 30, 2009, compared to 11.5% of impaired loans, 11.5% of non-accrual loans, and zero percent of loans over 90 days still on accrual status at December 31, 2008.

The allowance allocated to commercial mortgage loans increased from \$35.1 million at December 31, 2008, to \$82.9 million at September 30, 2009, which was due to increases in loans risk graded Substandard, an increase in the environmental factors, and due in part to the deteriorating economy. The overall allowance for total commercial mortgage loans was 2.0% for the third quarter ended September 30, 2009, and 0.8% for the year ended December 31, 2008. At September 30, 2009, eighty-three commercial mortgage loans totaling \$192.2 million were on non-accrual status and four commercial mortgage loans totalling \$11.2 million were past due 90 days and still accruing interest. At December 31, 2008, thirty commercial mortgage loans totaling \$32.3 million were on non-accrual status and one commercial mortgage loan totaling \$4.1 million was past due 90 days and still accruing interest. Commercial mortgage loans comprised 58.2% of impaired loans, 53.3% of non-accrual loans, and 67.6% of loans over 90 days still on accrual status at September 30, 2009, compared to 17.8% of impaired loans, 17.8% of non-accrual loans, and 60.9% of loans over 90 days still on accrual status at December 31, 2008.

The allowance allocated for construction loans decreased \$2.2 million to \$37.6 million, or 5.6%, of construction loans at September 30, 2009, compared to \$39.8 million, or 4.4%, of construction loans at December 31, 2008, primarily due to charge-offs of impaired loans during the first nine months of 2009. At September 30, 2009, twenty-nine construction loans totaling \$131.5 million were on non-accrual status and no construction loan was past due 90 days and still accruing interest. Construction loans comprised 31.3% of impaired loans, 36.5% of non-accrual loans, and zero percent of loans over 90 days still on accrual status at September 30, 2009, compared to 67.4% of impaired loans, 67.4% of non-accrual loans, and 39.1% of loans over 90 days still on accrual status at December 31, 2008.

The allowance allocated to residential mortgage loans and equity lines increased \$5.9 million, to \$8.6 million at September 30, 2009, from \$2.7 million at December 31, 2008, due to increases in loans risk graded Substandard due in part to the deteriorating economy.

Deposits

Total deposits were \$7.7 billion at September 30, 2009, an increase of \$872.0 million, or 12.8%, from \$6.8 billion at December 31, 2008, primarily due to increases of \$305.7 million, or 46.4%, in money market accounts and increases of \$527.2 million, or 16.3%, in time deposits of \$100,000 or more offset by decreases of \$160.4 million, or 9.8%, in time deposits under \$100,000. Brokered deposits which are reported in time deposits under \$100,000 declined \$226.0 million to \$746.9 million at September 30, 2009 from \$972.9 million at December 31, 2008. The following table displays the deposit mix as of the dates indicated:

	September 30, 2009	% of Total	December 31, 2008	% of Total
Deposits	(Dollars in thousands)			
Non-interest-bearing demand	\$ 829,302	10.8%	\$ 730,433	10.7%
NOW	324,774	4.2	257,234	3.8
Money market	965,159	12.5	659,454	9.6
Savings	349,298	4.5	316,263	4.6
Time deposits under \$100,000	1,484,056	19.3	1,644,407	24.1
Time deposits of \$100,000 or more	3,756,142	48.7	3,228,945	47.2
Total deposits	\$ 7,708,731	100.0%	\$ 6,836,736	100.0%

Borrowings

Borrowings include Federal funds purchased, securities sold under agreements to repurchase, funds obtained as advances from the Federal Home Loan Bank (“FHLB”) of San Francisco, and other borrowings from financial institutions.

Securities sold under agreements to repurchase were \$1.6 billion with a weighted average rate of 4.20% at September 30, 2009, compared to \$1.6 billion with a weighted average rate of 3.95% at December 31, 2008. Seventeen floating-to-fixed rate agreements totaling \$900.0 million are with initial floating rates for a period of time ranging from nine months to one year, with the floating rates ranging from the three-month LIBOR minus 100 basis points to the three-month LIBOR minus 340 basis points. Thereafter, the rates are fixed for the remainder of the term, with interest rates ranging from 4.29% to 5.07%. After the initial floating rate term, the counterparties have the right to terminate the transaction at par at the fixed rate reset date and quarterly thereafter. Thirteen fixed-to-floating rate agreements totaling \$650.0 million are with initial fixed rates ranging from 1.00% and 3.50% with initial fixed rate terms ranging from nine months to eighteen months. For the remainder of the seven year term, the rates float at 8% minus the three-month LIBOR rate with a maximum rate ranging from 3.25% to 3.75% and minimum rate of 0.0%. After the initial fixed rate term, the counterparties have the right to terminate the transaction at par at the floating rate reset date and quarterly thereafter. At September 30, 2009, repurchase agreements totaling \$1.6 billion were all callable but had not been called. The table below provides summary data for securities sold under agreements to repurchase as of September 30, 2009:

Securities Sold Under Agreements to Repurchase

(Dollars in millions)	Fixed-to-floating				Floating-to-fixed				Total
	All callable at September 30, 2009				All callable at September 30, 2009				
Rate type	Float Rate				Fixed Rate				
Rate index	8% minus 3 month LIBOR								
Maximum rate	3.75%	3.50%	3.50%	3.25%					
Minimum rate	0.0%	0.0%	0.0%	0.0%					
No. of agreements	3	5	4	1	2	1	10	4	30
Amount	\$ 150.0	\$ 250.0	\$ 200.0	\$ 50.0	\$ 100.0	\$ 50.0	\$ 550.0	\$ 200.0	\$ 1,550.0
Weighted average rate	3.75%	3.50%	3.50%	3.25%	4.77%	4.83%	4.54%	5.00%	4.20%
Range of final maturity term	2014	2014	2015	2015	2011	2012	2014	2017	

These transactions are accounted for as collateralized financing transactions and recorded at the amounts at which the securities were sold. The Company may have to provide additional collateral for the repurchase agreements, as necessary. The underlying collateral pledged for the repurchase agreements consists of U.S. Treasury securities, U.S. government agency security debt, and mortgage-backed securities with a fair value of \$1.8 billion as of September 30, 2009, and \$1.7 billion as of December 31, 2008.

Total advances from the FHLB of San Francisco decreased \$520.0 million to \$929.4 million at September 30, 2009 from \$1.45 billion at December 31, 2008. Non-puttable advances totaled \$229.4 million with a weighted rate of 4.76% and puttable advances totaled \$700.0 million with a weighted average rate of 4.42% at September 30, 2009. The FHLB has the right to terminate the puttable transaction at par at each three-month anniversary after the first puttable date. All puttable FHLB advances of \$700.0 million were puttable as of September 30, 2009 but the FHLB had not exercised its right to terminate any of the puttable transactions.

Long-term Debt

On September 29, 2006, the Bank issued \$50.0 million in subordinated debt in a private placement transaction. The debt has a maturity term of 10 years, is unsecured and bears interest at a rate of three month LIBOR plus 110 basis points, payable on a quarterly basis. At September 30, 2009, the per annum interest rate on the subordinated debt was 1.38% compared to 2.56% at December 31, 2008. The subordinated debt was issued through the Bank and qualifies as Tier 2 capital for regulatory reporting purposes and is included in long-term debt in the accompanying condensed consolidated balance sheets.

The Bancorp established three special purpose trusts in 2003 and two in 2007 for the purpose of issuing trust preferred securities to outside investors (Capital Securities). The trusts exist for the purpose of issuing the Capital Securities and investing the proceeds thereof, together with proceeds from the purchase of the common stock of the trusts by the Bancorp, in junior subordinated notes issued by the Bancorp. The five special purpose trusts are considered variable interest entities under FIN 46R. Because the Bancorp is not the primary beneficiary of the trusts, the financial statements of the trusts are not included in the consolidated financial statements of the Company. At September 30, 2009, junior subordinated debt securities totaled \$121.1 million with a weighted average interest rate of 2.46% compared to \$121.1 million with a weighted average rate of 4.02% at December 31, 2008.

The junior subordinated debt securities have a stated maturity term of 30 years and are currently included in the Tier 1 capital of the Bancorp for regulatory capital purposes.

Off-Balance-Sheet Arrangements and Contractual Obligations

The following table summarizes the Company's contractual obligations to make future payments as of September 30, 2009. Payments for deposits and borrowings do not include interest. Payments related to leases are based on actual payments specified in the underlying contracts.

	Payment Due by Period				Total
	1 year or less	More than 1 year but less than 3 years	3 years or more but less than 5 years	5 years or more	
	(In thousands)				
Contractual obligations:					
Deposits with stated maturity dates	\$ 4,975,830	\$ 264,013	\$ 353	\$ 2	\$ 5,240,198
Securities sold under agreements to repurchase (1)	-	150,000	650,000	750,000	1,550,000
Advances from the Federal Home Loan Bank (2)	65,000	864,362	-	-	929,362
Other borrowings	-	1,313	-	19,355	20,668
Long-term debt	-	-	-	171,136	171,136
Operating leases	5,634	8,475	5,703	1,793	21,605
Total contractual obligations and other commitments	<u>\$ 5,046,464</u>	<u>\$ 1,288,163</u>	<u>\$ 656,056</u>	<u>\$ 942,286</u>	<u>\$ 7,932,969</u>

(1) These repurchase agreements have a final maturity of 5-year, 7-year and 10-year from origination date but are callable on a quarterly basis after six months, one year, or 18 months for the 7-year term and one year for the 5-year and 10-year term.

(2) FHLB advances of \$700.0 million that mature in 2012 have a puttable option. As of September 30, 2009, all puttable FHLB advances were puttable on a quarterly basis.

Regulatory Considerations

As a financial holding company and a bank holding company under the Bank Holding Company Act of 1956, as amended, the Bancorp is subject to regulation, supervision and examination by the Federal Reserve Board.

Dividends from the Bank are our primary source of funds for payment of principal and interest on our debt and dividends to our stockholders. In the year ended December 31, 2008, the Bancorp declared cash dividends to the holders of our common stock of \$20.8 million. There are, however, statutory limits on the amount of dividends that the Bank can pay to the Bancorp without regulatory approval.

The Bank may not, without the prior approval of the DFI, pay a dividend in an amount which exceeds the lesser of (a) the retained earnings of the Bank; or (b) the net income of the Bank for its last three fiscal years, less the amount of any distributions made by the Bank or by any majority-owned

subsidiary of the Bank during such period. At September 30, 2009, the Bank had \$125.6 million available for payment of dividends to the Bancorp.

If, in the opinion of the applicable regulatory authority, a bank under its jurisdiction is engaged in or is about to engage in an unsafe or unsound practice, such authority may require, after notice and hearing, that such bank cease and desist from such practice. Depending on the financial condition of the bank, the applicable regulatory authority might deem the bank to be engaged in an unsafe or unsound practice if the bank were to pay dividends. The Federal Reserve Board has issued policy statements that provide that insured banks and bank holding companies should generally only pay dividends out of current operating earnings.

As a result of the losses we have incurred to date, we expect to become subject to some form of supervisory action that could result in us agreeing to implement plans that are intended to, among other things, increase our capital and maintain specific minimum capital ratios, reduce the amount of our non-performing loans, operate in a profitable manner, improve our credit risk management and related policies and procedures, improve our staffing levels in certain areas, or pay dividends only with prior regulatory approval.

Capital Resources

Total equity of \$1.28 billion at September 30, 2009, decreased by \$21.9 million, or 1.7%, from \$1.30 billion at December 31, 2008. The following table summarizes the activity in total equity:

(In thousands)	Nine months ended September 30, 2009
Net loss	\$ (32,112)
Proceeds from issuance of common stock	31,390
Proceeds from shares issued to the Dividend Reinvestment Plan	1,102
Proceeds from exercise of stock options	13
Tax short-fall from stock-based compensation expense	(195)
Share-based compensation	4,123
Changes in other comprehensive income	(6,886)
Preferred stock registration fees	(25)
Preferred stock dividends	(9,675)
Cash dividends paid to common stockholders	(9,657)
Net decrease in total equity	<u>\$ (21,922)</u>

On September 9, 2009, the Company commenced a \$75 million at-the-market common stock offering. Through September 30, 2009, the Company raised \$31.4 million in additional capital through the sale of 3,490,000 shares of common stock from its at-the-market capital offering. On October 12, 2009, the Company terminated its at-the-market common stock program and commenced a public offering of \$70.4 million of common stock. On October 13, 2009, the Company sold 8,756,756 shares of its common stock (including 1,142,185 shares through the underwriter's over subscription option) through a follow on public offering and raised \$76.0 million in additional capital which was net of underwriter's discount and professional expenses totaling \$5.0 million. The Company closed its public common stock offering on October 19, 2009.

Dividend Policy

Holders of common stock are entitled to dividends as and when declared by our board of directors out of funds legally available for the payment of dividends. Although we have historically paid cash dividends on our common stock, we are not required to do so. Commencing with the second quarter of 2009, our board of directors reduced our common stock dividend to \$.08 per share. In the third quarter of 2009, our board of directors further reduced our dividend to \$.01 per share. The amount of future dividends will depend on earnings, financial condition, capital requirements and other factors, and will be determined by our board of directors. We intend to consult with our regulators before paying any dividends, and, in any event, we would not expect to pay dividends of more than \$.01 per share before the fourth quarter of 2010. There can be no assurance that our regulators will not object to the payment of such dividends. Substantially all of the revenues of the Company available for payment of dividends derive from amounts paid to it by the Bank. The terms of the Bank Subordinated Securities limit the ability of the Bank to pay dividends to us if the Bank is not current in paying interest on the Bank Subordinated Securities or another event of default has occurred. In our three year capital and strategic plan submitted to our regulators, we indicated the Bank was not expected to pay dividends to us through 2011. The terms of our Fixed Rate Cumulative Perpetual Preferred Stock, Series B, and Junior Subordinated Securities also limit our ability to pay dividends on our common stock. If we are not current in our payment of dividends on our Series B Preferred Stock or in our payment of interest on our Junior Subordinated Securities, we may not pay dividends on our common stock.

The Company declared a cash dividend of one cent per share for distribution on August 20, 2009 on 49,575,813 shares outstanding, 8 cents per share for distribution in May 2009 on 49,535,723 shares outstanding, and 10.5 cents per share for distribution in January 2009 on 49,508,250 shares outstanding. Total cash dividends paid in 2009, including the \$0.5 million paid on August 20, 2009, amounted to \$9.7 million.

Capital Adequacy Review

Management seeks to maintain the Company's capital at a level sufficient to support future growth, protect depositors and stockholders, and comply with various regulatory requirements.

On September 29, 2006, the Bank issued \$50.0 million in subordinated debt in a private placement transaction. This instrument matures on September 29, 2016. The subordinated debt was issued through the Bank and qualifies as Tier 2 capital for regulatory reporting purposes.

The Bancorp established five special purpose trusts for the purpose of issuing trust preferred securities to outside investors (Capital Securities). The trusts exist for the purpose of issuing the Capital Securities and investing the proceeds thereof, together with proceeds from the purchase of the common stock of the trusts by the Bancorp, in junior subordinated notes issued by the Bancorp. The junior subordinated debt of \$121.1 million as of September 30, 2009, were included in the Tier 1 capital of the Bancorp for regulatory capital purposes.

Both the Bancorp's and the Bank's regulatory capital continued to exceed the regulatory minimum requirements as of September 30, 2009. In addition, the capital ratios of the Bank place it in the "well capitalized" category which is defined as institutions with a Tier 1 risk-based capital ratio equal to or greater than 6.0%, total risk-based ratio equal to or greater than 10.0%, and Tier 1 leverage capital ratio equal to or greater than 5.0%.

The following table presents the Bancorp's and the Bank's capital and leverage ratios as of September 30, 2009, and December 31, 2008:

(Dollars in thousands)	Cathay General Bancorp				Cathay Bank			
	September 30, 2009		December 31, 2008		September 30, 2009		December 31, 2008	
	Balance	%	Balance	%	Balance	%	Balance	%
Tier 1 capital (to risk-weighted assets)	\$1,049,699	12.63	\$1,058,751	12.12	\$1,012,335	12.19	\$1,012,164	11.60
Tier 1 capital minimum requirement	332,475	4.00	349,462	4.00	332,101	4.00	349,053	4.00
Excess	\$717,224	8.63	\$709,289	8.12	\$680,234	8.19	\$663,111	7.60
Total capital (to risk-weighted assets)	\$1,204,301	14.49	\$1,217,795	13.94	\$1,167,965	14.07	\$1,171,494	13.42
Total capital minimum requirement	664,951	8.00	698,924	8.00	664,201	8.00	698,105	8.00
Excess	\$539,350	6.49	\$518,871	5.94	\$503,764	6.07	\$473,389	5.42
Tier 1 capital (to average assets)								
– Leverage ratio	\$1,049,699	9.29	\$1,058,751	9.79	\$1,012,335	8.97	\$1,012,164	9.38
Minimum leverage requirement	452,179	4.00	432,453	4.00	451,366	4.00	431,840	4.00
Excess	\$597,520	5.29	\$626,298	5.79	\$560,969	4.97	\$580,324	5.38
Risk-weighted assets	\$8,311,884		\$8,736,555		\$8,302,518		\$8,726,316	
Total average assets (1)	\$11,304,472		\$10,811,335		\$11,284,141		\$10,796,005	

(1) The quarterly total average assets reflect all debt securities at amortized cost, equity security with readily determinable fair values at the lower of cost or fair value, and equity securities without readily determinable fair values at historical cost.

Financial Derivatives

It is the policy of the Company not to speculate on the future direction of interest rates. However, the Company enters into financial derivatives in order to seek mitigation of exposure to interest rate risks related to our interest-earning assets and interest-bearing liabilities. We believe that these transactions, when properly structured and managed, may provide a hedge against inherent interest rate risk in the Company's assets or liabilities and against risk in specific transactions. In such instances, the Company may protect its position through the purchase or sale of interest rate futures contracts for a specific cash or interest rate risk position. Other hedge transactions may be implemented using interest rate swaps, interest rate caps, floors, financial futures, forward rate agreements, and options on futures or bonds. Prior to considering any hedging activities, we seek to analyze the costs and benefits of the hedge in comparison to other viable alternative strategies. All hedges will require an assessment of basis risk and must be approved by the Bank's Investment Committee.

The Company follows ASC Topic 815 which established accounting and reporting standards for financial derivatives, including certain financial derivatives embedded in other contracts, and hedging activities. It requires the recognition of all financial derivatives as assets or liabilities in the Company's consolidated balance sheet and measurement of those financial derivatives at fair value. The accounting treatment of changes in fair value is dependent upon whether or not a financial derivative is designated as a hedge and if so, the type of hedge.

In the third quarter of 2009, we entered into five interest rate swap agreements with two major financial institution in the notional amount of \$300.0 million for a period of three years. These interest rate swaps were not structured to hedge against inherent interest rate risks related to our interest-earning assets and interest-bearing liabilities. At September 30, 2009, the Company paid fixed rate at

weighted average rate of 1.95% and received floating 3-month Libor rate at weighted average rate of 0.36%. The net amount accrued on these interest rate swaps of \$402,000 for the three months and for the nine months ended September 30, 2009 were recorded to reduce other non-interest income. At September 30, 2009, the Company recorded \$936,000 within other liabilities to recognize the negative fair value of these interest rate swaps.

The Company enters into foreign exchange forward contracts and foreign currency option contracts with various counterparties to mitigate the risk of fluctuations in foreign currency exchange rates, for foreign exchange certificates of deposit, foreign exchange contracts or foreign currency option contracts entered into with our clients. These contracts are not designated as hedging instruments and are recorded at fair value in our consolidated balance sheets. Changes in the fair value of these contracts as well as the related foreign exchange certificates of deposit, foreign exchange contracts or foreign currency option contracts are recognized immediately in net income as a component of non-interest income. Period end gross positive fair values are recorded in other assets and gross negative fair values are recorded in other liabilities. At September 30, 2009, the notional amount of option contracts totaled \$8.3 million and with a net positive fair value of \$144,000, the notional amount of spot and forward contracts totaled \$75.0 million and with a positive fair value of \$11.8 million, the notional amount of spot and forward contracts totaled \$21.2 million and with a negative fair value of \$296,000.

Liquidity

Liquidity is our ability to maintain sufficient cash flow to meet maturing financial obligations and customer credit needs, and to take advantage of investment opportunities as they are presented in the marketplace. Our principal sources of liquidity are growth in deposits, proceeds from the maturity or sale of securities and other financial instruments, repayments from securities and loans, federal funds purchased, securities sold under agreements to repurchase, and advances from the Federal Home Loan Bank (“FHLB”). At September 30, 2009, our liquidity ratio (defined as net cash plus short-term and marketable securities to net deposits and short-term liabilities) was at 23.9% compared to 23.4% same as year-end 2008.

To supplement its liquidity needs, the Bank maintains a total credit line of \$95.0 million for federal funds with two correspondent banks, and master agreements with brokerage firms for the sale of securities subject to repurchase. The Bank is also a shareholder of the FHLB of San Francisco, enabling it to have access to lower cost FHLB financing when necessary. As of September 30, 2009, the Bank had an approved credit line with the FHLB of San Francisco totaling \$1.5 billion. The total credit outstanding with the FHLB of San Francisco at September 30, 2009, was \$929.4 million. These borrowings are secured by loans and securities. The Bank has pledged a portion of its commercial and real estate loans to the Federal Reserve Bank’s Discount Window under the Borrower-in-Custody program. At September 30, 2009, the borrowing capacity under the Borrower-in-Custody program was \$320.4 million.

Liquidity can also be provided through the sale of liquid assets, which consist of federal funds sold, securities sold under agreements to repurchase, and unpledged investment securities. At September 30, 2009, investment securities at fair value and trading securities totaled \$3.40 billion, with \$2.59 billion pledged as collateral for borrowings and other commitments. The remaining \$806.7 million was available as additional liquidity or to be pledged as collateral for additional borrowings.

Approximately 95% of the Company's time deposits mature within one year or less as of September 30, 2009. Management anticipates that there may be some outflow of these deposits upon maturity due to the keen competition in the Bank's marketplace. However, based on our historical runoff experience, we expect that the outflow will be minimal and can be replenished through our normal growth in deposits. Management believes the above-mentioned sources will provide adequate liquidity to the Bank to meet its daily operating needs.

The Bancorp obtains funding for its activities primarily through dividend income contributed by the Bank and proceeds from the issuance of securities, including proceeds from the issuance of its common stock pursuant to its Dividend Reinvestment Plan, the exercise of stock options, and the issuance of new common shares. In light of the uncertain economic times, the Bank has not paid a dividend to the Bancorp during the first nine months of 2009 and is not expected to pay a dividend to the Bancorp for the remainder of 2009. The business activities of the Bancorp consist primarily of the operation of the Bank with limited activities in other investments. Management believes the Bancorp's cash on hand on September 30, 2009 of \$30.0 million is sufficient to meet its operational needs for the next twelve months.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market Risk

We use a net interest income simulation model to measure the extent of the differences in the behavior of the lending and funding rates to changing interest rates, so as to project future earnings or market values under alternative interest rate scenarios. Interest rate risk arises primarily through the Company's traditional business activities of extending loans and accepting deposits. Many factors, including economic and financial conditions, movements in interest rates and consumer preferences affect the spread between interest earned on assets and interest paid on liabilities. The net interest income simulation model is designed to measure the volatility of net interest income and net portfolio value, defined as net present value of assets and liabilities, under immediate rising or falling interest rate scenarios in 100 basis point increments.

Although the modeling is very helpful in managing interest rate risk, it does require significant assumptions for the projection of loan prepayment rates on mortgage related assets, loan volumes and pricing, and deposit and borrowing volume and pricing, that might prove inaccurate. Because these assumptions are inherently uncertain, the model cannot precisely estimate net interest income, or precisely predict the effect of higher or lower interest rates on net interest income. Actual results will differ from simulated results due to the timing, magnitude, and frequency of interest rates changes, the differences between actual experience and the assumed volume, changes in market conditions, and management strategies, among other factors. The Company monitors its interest rate sensitivity and attempts to reduce the risk of a significant decrease in net interest income caused by a change in interest rates.

We have established a tolerance level in our policy to define and limit interest income volatility to a change of plus or minus 15% when the hypothetical rate change is plus or minus 200 basis points. When the net interest rate simulation projects that our tolerance level will be met or exceeded, we seek corrective action after considering, among other things, market conditions, customer reaction, and the estimated impact on profitability. The Company's simulation model also projects the net economic value of our portfolio of assets and liabilities. We have established a tolerance level in our policy to

value the net economic value of our portfolio of assets and liabilities to a change of plus or minus 15% when the hypothetical rate change is plus or minus 200 basis points.

The table below shows the estimated impact of changes in interest rate on net interest income and market value of equity as of September 30, 2009:

Change in Interest Rate (Basis Points)	Net Interest Income Volatility (1)	Market Value of Equity Volatility (2)
	September 30, 2009	September 30, 2009
+200	-4.9	-15.3
+100	-4.4	-6.8
-100	4.7	12.1
-200	4.0	18.2

(1) The percentage change in this column represents net interest income of the Company for 12 months in a stable interest rate environment versus the net interest income in the various rate scenarios.

(2) The percentage change in this column represents net portfolio value of the Company in a stable interest rate environment versus the net portfolio value in the various rate scenarios.

ITEM 4. CONTROLS AND PROCEDURES.

The Company's principal executive officer and principal financial officer have evaluated the effectiveness of the Company's "disclosure controls and procedures," as such term is defined in Rule 13(a)-15(e) of the Securities Exchange Act of 1934, as amended, (the "Exchange Act") as of the end of the period covered by this quarterly report. Based upon their evaluation, the principal executive officer and principal financial officer have concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports filed or submitted by it under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

There has not been any change in our internal control over financial reporting that occurred during the fiscal quarter covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

The Bancorp's wholly-owned subsidiary, Cathay Bank, is a party to ordinary routine litigation from time to time incidental to various aspects of its operations. Management is not aware of any litigation that is expected to have a material adverse impact on the Company's consolidated financial condition, or the results of operations.

ITEM 1A. RISK FACTORS.

Please refer to Item 1A. Risk Factors included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 filed with the Securities and Exchange Commission (the “SEC”), as most recently updated by the section titled “Risk Factors” in Exhibit 99.2 to our Current Report on Form 8-K filed with the SEC on October 13, 2009, which are incorporated herein by reference.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

ISSUER PURCHASES OF EQUITY SECURITIES				
Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
Month #1 (July 1, 2009 - July 31, 2009)	0	\$0	0	622,500
Month #2 (August 1, 2009 - August 31, 2009)	0	\$0	0	622,500
Month #3 (September 1, 2009 - September 30, 2009)	0	\$0	0	622,500
Total	0	\$0	0	622,500

On November 2007, the Company announced that its Board of Directors had approved a new stock repurchase program to buy back up to an aggregate of one million shares of the Company’s common stock. No shares were purchased during 2008 or the first nine months of 2009. At September 30, 2009, 622,500 shares remain under the Company’s November 2007 repurchase program.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

Not applicable.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

Not applicable.

ITEM 5. OTHER INFORMATION.

Not applicable.

ITEM 6. EXHIBITS.

- (i) **Exhibit 31.1** Certification of the Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- (ii) **Exhibit 31.2** Certification of the Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- (iii) **Exhibit 32.1** Certification of the Chief Executive Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- (iv) **Exhibit 32.2** Certification of the Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Cathay General Bancorp

I, Dunson K. Cheng, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Cathay General Bancorp;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
